MEMORANDUM FOR SAF/PA

FROM: SAF/FMCE

SUBJECT: Public Release Approval Request

1. The attached material, described below, is forwarded for security and policy review in accordance with AFI 35-101, Chapter 15:

TITLE: USAF Summaries for 1945-2005
(Please include page count)

AUTHOR/ORGANIZATION: SAF/FMCE

PRESENTATION TO: *General Public*

DATE: *As soon as "Approved" for Public Release*

LOCATION: *DTIC Public Database*

PUBLICATION IN: *N/A*

SUBMITTAL DEADLINE: *N/A*

REQUEST REPLY BY: *23 Feb 2011*

Headquarters, USAF
Washington 25, D. C.

FOREWORD

The "USAF Statistical Digest" summarizes in one document selected statistical data collected and published by various offices in Headquarters, United States Air Force and certain major commands. It is published in accordance with AFR 5-24 and is to be used as the official basic reference document for the period and areas covered.

This is the thirteenth edition in an annual series which began in 1946. A 1945 edition, "Army Air Force Statistical Digest (World War II)" and "Supplement 1" summarized data on World War II and on selected subjects for 1945.

Immediately following the table of contents is a major air command listing containing information which is appropriate to all tables. Definitions and general information pertaining to specific subject matter areas are found in introductory statements in each part. In each of the annual editions an effort has been made to preserve the historical continuity of data in order to facilitate comparison and analysis.

Sources of data are the published and unpublished records of the Directorate of Statistical Services, except as otherwise noted in the source credit after each table.

Correspondence relative to the content of this document, as well as suggestions for future editions, should be addressed to the Director of Statistical Services, Headquarters, United States Air Force, Washington 25, D. C.

MAJOR AIR COMMANDS AND SEPARATE OPERATING AGENCIES OF THE UNITED STATES AIR FORCE

Fiscal Year 1958

Listed below are the major air commands and separate operating agencies which were operational during Fiscal Year 1958. A brief history of each is included to facilitate comparison and analysis with tables in Statistical Digests of previous years. Historical summaries of major air commands and separate operating agencies which were discontinued prior to Fiscal Year 1958 can be found in Statistical Digests of former years.

AIR DEFENSE COMMAND (ADC)
Established 21 March 1946; reassigned to Continental Air Command, 1 December 1948; discontinued, 1 July 1950; and re-established as a major air command 1 January 1951.

AIR FORCE ACCOUNTING AND FINANCE DIVISION (AFAFD)
Established as Air Force Finance Division effective 1 January 1951; redesignated as Air Force Accounting and Finance Division, 1 September 1957.

AIR MATERIEL COMMAND (AMC)
Established 17 July 1944 as AAF Materiel and Services; redesignated as AAF Air Technical Service Command; 31 August 1944; redesignated as Air Technical Service Command, 1 July 1945; and redesignated as Air Materiel Command, 9 March 1946.

AIR PROVING GROUND COMMAND (APGC)
Established as AAF School of Applied Tactics, 27 October 1942; redesignated as AAF Tactical Center, 28 October 1943; redesignated as AAF Center, 1 June 1945; redesignated as AAF Proving Ground Command, 26 February 1946; redesignated as Air Proving Ground Command, 10 July 1946; redesignated as Air Proving Ground and assigned to Air Materiel Command 20 January 1948; relieved of assignment to Air Materiel Command and designated a major air command, 1 June 1948; and redesignated as Air Proving Ground Command 20 December 1951; redesignated to Air Proving Ground Center effective 1 December 1957 and assigned to Air Research and Development Command. Concurrently its status as a major air command was terminated.

AIR RESEARCH AND DEVELOPMENT COMMAND (ARDC)
Established as Research and Development Command, 23 January 1950; redesignated as Air Research and Development Command, 15 September 1950, and assumed powers, missions, functions, and responsibilities of the Air Force Special Weapons Center (formerly Special Weapons Command), 1 April 1952.

AIR TRAINING COMMAND (ATC)
Established as Army Air Force Training Command, 7 July 1943; and redesignated as Air Training Command, 1 July 1946.

AIR UNIVERSITY (AU)
Established as AAF School of Applied Tactics, 1 November 1943; redesignated as Army Forces School, 1 June 1945 and redesignated as Air University, 12 March 1946.

ALASKAN AIR COMMAND (AAC)
Activated Alaskan Air Force, 15 January 1942; redesignated as 11th Air Force, 5 February 1942; and redesignated as Alaskan Air Command, 21 December 1945.

CARIBBEAN AIR COMMAND (CAIRC)
Activated Panama Canal Air Force, 20 November 1940; redesignated as Caribbean Air Force, 5 August 1941; redesignated as Sixth Air Force, 5 February 1942; redesignated as Caribbean Air Command, 31 July 1946; and assumed powers, missions, functions and responsibilities of Antilles Air Command, 31 July 1946.

CONTINENTAL AIR COMMAND (CONAC)
Established 1 December 1948.

HEADQUARTERS COMMAND, USAF (HQC)
Established as Bolling Field Command, 15 December 1946; and redesignated as Headquarters Command, USAF, 17 March 1948.

MILITARY AIR TRANSPORT SERVICE (MATS)
Established 1 June 1948 assuming all active units of the discontinued Air Transport Command and Air Transport Service; and assumed powers, missions, functions and responsibilities of Air Pictorial Service, 16 April 1952.

PACIFIC AIR FORCES (PACAF)
Activated Far East Air Forces, 3 August 1944; redesignated as Pacific Air Command, US Army, 6 December 1945; redesignated as Far East Air Forces, 1 January 1947 and redesignated to Pacific Air Forces effective 1 July 1957.

STRATEGIC AIR COMMAND (SAC)
Established 21 March 1946 concurrent with redesignation of Continental Air Forces.

TACTICAL AIR COMMAND (TAC)
Established 21 March 1946; reassigned to Continental Air Command, 1 December 1948; and relieved of assignment to Continental Air Command and designated a major air command, 1 December 1950.

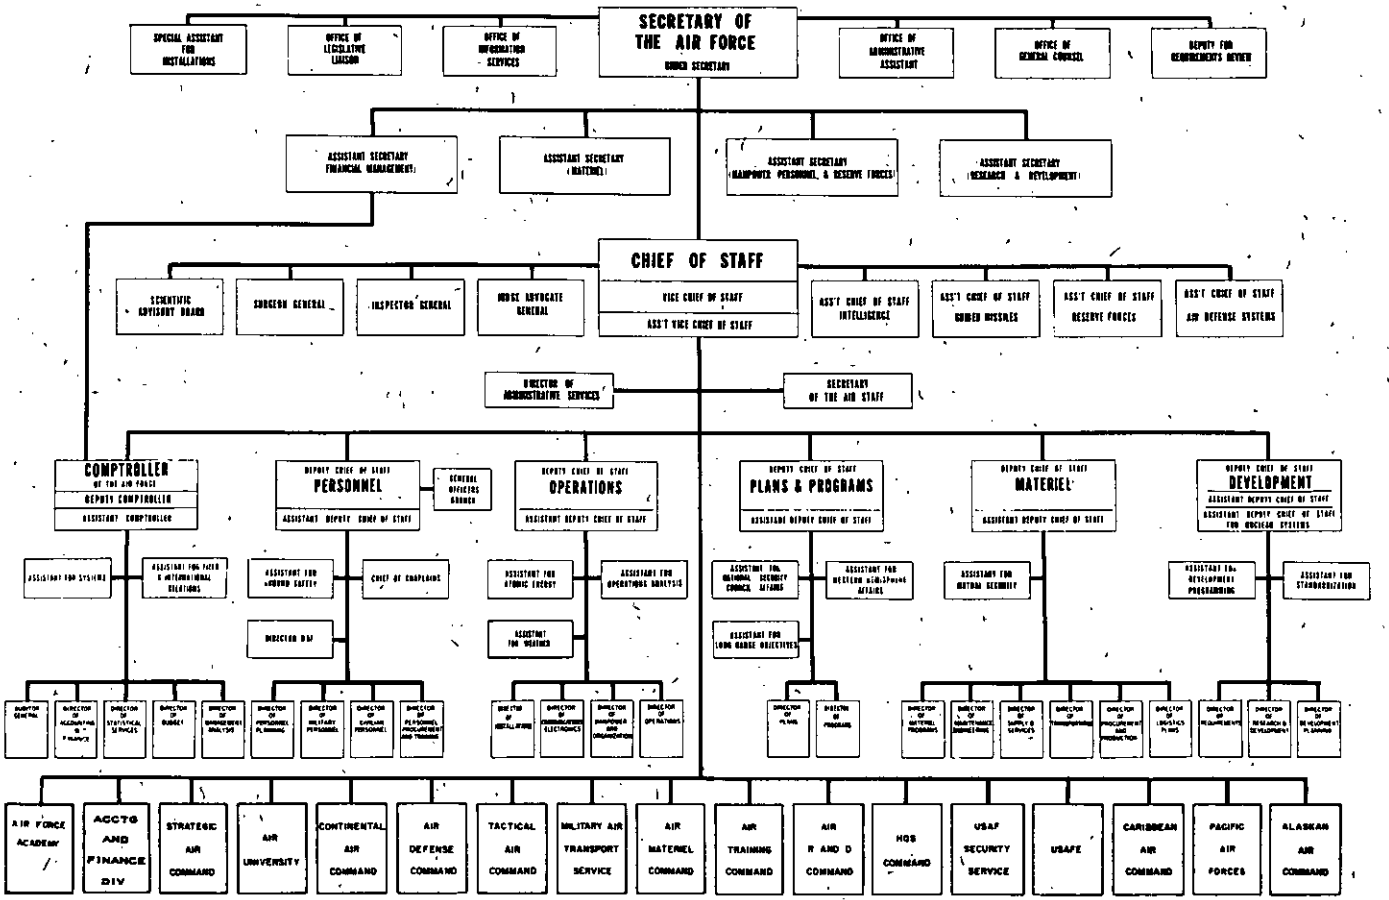

USAF ACADEMY (USAFA)
Established 27 July 1954. The Headquarters of the Academy was activated 14 August 1954.

U. S. AIR FORCES IN EUROPE (USAFE)
Activated Eighth Air Force 28 January 1942; redesignated as United States Strategic Air Forces in Europe, 1 March 1944; redesignated as U. S. Air Forces in Europe, 7 August 1945.

USAF SECURITY SERVICE (USAFSS)
Established 20 October 1948.

SIXTEENTH AIR FORCE (16AF)
Established as a separate operating agency, 20 May 1954. Redesignated from Joint United States Military Group, Air Administration (Spain) to Sixteenth Air Force effective 15 July 1956. Effective 1 July 1957 its status as a separate operating agency was terminated, concurrently it was assigned to SAC.

DEPARTMENT OF THE AIR FORCE

Air Force Units & Capabilities

PART I

AIR FORCE UNITS AND CAPABILITIES

INTRODUCTION

The tables included in this section provide a summary of all USAF units and summary data reflecting the status and deployment of USAF major wings and flying support units.

Tables reflecting status and deployment contain the following data:

1. Total units activated, Fiscal Years 1953 through 1958.
2. Equipped units by type of unit equipment possessed, Fiscal Years 1953 through 1958.
3. Authorized, possessed, combat-ready unit equipment and authorized, assigned, combat-ready crews in units by type of unit equipment, Fiscal Years 1955 through 1958.
4. Operational readiness of USAF major wings, Fiscal Year 1958.

DEFINITIONS

Major Wing An Air Force unit establishment on a level of command below the level of an air force or of an air division (if such exists) and above that of a group, in which the structure of organization provides for a primary mission group or its equivalent with the necessary supporting organizations and other services required by the primary mission group. It is designed for direct participation in operations against enemy forces or for providing airlift for combat elements.

Squadron Generally, the basic constituted and activated Air Force unit below the level of a wing or its equivalent.

Note: In some cases, major squadrons do not have a parent wing. Such units are shown in wing equivalents on the basis that three or four primary mission squadrons, depending on the type of unit and location, are the equivalent of a wing.

Flying Support Unit A flying unit which has a mission of furnishing operational assistance to combat elements.

Operational Readiness A measurement of relative capability. It is the degree to which a unit is manned, equipped, and trained for the satisfactory performance of its primary mission.

Primary Mission The principal mission currently assigned the unit. Normally, it is the preparation for or the execution of the task for which the unit was basically intended.

TABLE 3 —USAF MAJOR WINGS AND SUPPORT FORCES (FLYING), WORLDWIDE, CONTINENTAL US AND OVERSEAS, BY TYPE, BY MONTH — FISCAL YEAR 1958

The following tables reflect the number of wings and/or groups, including Support Forces (Flying) units, and, in parentheses, the number of squadrons comprising the wings and/or groups. Major Squadrons not having wing or group assignments are shown in wing equivalents on the basis of approximately three or four squadrons to a wing depending on the type of unit and location.

Statistics presented include only those major units, including Support Forces (Flying) units, activated or organized and for which inactivation or discontinuance had not been accomplished on the date shown.

Units located within the continental limits of the United States are shown within their respective command of assignment. Units located outside the continental limits of the United States are shown under the major commands in which they are located.

The Support Forces (Flying) units for Fiscal Year 1958 are Air Refueling; Air Transport including those with Navy personnel; Aeromedical Transport, L; Air Rescue; Weather Reconnaissance; Photo Mapping; Airborne Early Warning and Control; Troop Carrier, M (Special); Logistic Support; Strategic Support; Radar Evaluation; Tow Target; Helicopter and Drone Squadrons.

TABLE 9 —OPERATIONAL READINESS OF USAF MAJOR WINGS, BY QUARTER — FISCAL YEAR 1958

Unit capabilities are expressed as "C" ratings. These evaluations are prepared by Headquarters USAF after considering all known factors affecting unit readiness.
C-1 High degree of relative effectiveness. Adequately manned, equipped and trained to perform assigned mission with latest type UE(first line aircraft and equipment).
C-2 Same as C-1 except with second line aircraft and equipment (B-45, F-86E etc.) or with first line aircraft and equipment not designed to perform the primary mission of the unit.
C-3 A lesser degree of capability than indicated above with either first or second line equipment. Shortage of personnel, equipment and facilities, etc., exists.
C-4 A very low degree of effectiveness. Extreme shortage in equipment, personnel and facilities exists.

Flight Operations

PART II

FLIGHT OPERATIONS

INTRODUCTION

Aircraft flight operations data included in this section are based on statistics submitted on AF Form 110A in accordance with AFR 65-110 as revised. The 110A report is compiled on a physical possession basis with the various activity categories determined by the assignment or status of the aircraft rather than actual use.

The tables provide summary data covering flight operations for Operating Active USAF aircraft and include aircraft flying hours, utilization, etc.

DEFINITIONS

Operating Active - Those aircraft which are actively engaged in supporting flying missions, including test aircraft and aircraft bailed to civilian activities for test. Assignment codes are as follows:

(AD) Administrative: Aircraft authorized major air commands for the performance of command administrative missions.

(CS) Operational Support: Aircraft assigned for essential liaison and logistic support not otherwise provided, and for the required combat readiness training of rated personnel not presently assigned to tactical units or crew positions.

(CC) Primary Tactical Unit: Aircraft assigned as primary unit equipment for the direct accomplishment of tactical unit operations.

(CP) Tactical Unit Support: Aircraft which are authorized and assigned as tactical unit support aircraft.

(CU) Student Training: Aircraft assigned to perform the mission of student and combat crew training within the Air Training Command, Military Air Transport Service and Air Force Academy.

(CT) MATS Transport: Aircraft assigned for the accomplishment of transport operations within MATS.

(CE) MATS Air Evacuation: Aircraft assigned for the accomplishment of air evacuation operations within MATS.

(TC) Combat Crew Training: Aircraft assigned specifically to combat training schools.

(EX) Test: Aircraft assigned for testing, research and development other than "X" models and aircraft on bailment contract.

(ES) Test Support: Aircraft assigned to support of test aircraft and allied equipment other than aircraft on bailment contract for test support.

(CM) Special Mission: Aircraft assigned to major air commands to accomplish missions of the Air Force in support of its own special activities and those of the governmental agencies which cannot be met as a by-product mission of other flying.

Non-Operating Active - Non-operating aircraft includes those aircraft in preparation for delivery to units or test activities through any of the logistical processes of supply, maintenance and modification, and those aircraft which are excess to command requirements. Flying in the following assignment codes, CD-CX-DP-DW-NR-RT and XJ are shown grouped together.

Inactive - Inactive aircraft includes aircraft Recommended for Reclamation, Flyable Inactive, Storage, Excess Flyable, Excess Grounded and Excess Storage. Flying in the following assignment codes, FI-RS-SS-XS-XG are shown grouped together.

Safety

PART III

FLYING SAFETY

INTRODUCTION

The content of this section presents data on aircraft accidents which occurred in the United States Air Force, the Air National Guard, the Air Force Reserve, and the Navy units flying for the Military Air Transport Service during Fiscal Year 1958.

During Fiscal Year 1958, all accidents, major and minor, totalled 1,170. These accident statistics are reflected herein by command, by type and model of aircraft involved, by phase of operation in which the accident occurred, by the factors causing the accident and by the conditions affecting the accident. All rates are expressed in number of accidents per 100,000 flying hours.

DEFINITIONS

AIRCRAFT ACCIDENT:
A mishap involving one or more Air Force aircraft that occurs between the time the engine is started for the purpose of commencing flight and the time when the aircraft comes to rest with the engine(s) stopped and all personnel on board have deplaned in a normal manner, and which results in minor or substantial damage to, or destruction of, the aircraft.

MAJOR ACCIDENT:
A major accident is one in which the aircraft is destroyed or received substantial damage as defined in Paragraph 10, AFR 62-14.

MINOR ACCIDENT:
A minor accident is one in which the aircraft receives minor damage as defined in Paragraph 10, AFR 62-14.

FATAL ACCIDENT:
An accident in which damage to aircraft is sustained and death to personnel results.

FATALITY:
A death resulting from injuries or the complication arising therefrom, received in an aircraft accident. Fatalities enumerated include all persons killed and/or missing as a result of Air Force aircraft accidents. Pilot fatalities apply to USAF, ANG, AFR and MAT's Navy pilots only.

BAILMENT AND/OR LOAN:
Accidents in aircraft which are on bailment contract or on loan are included in the total number of accidents appearing in this section. However, flying time is not available for bailment/loan aircraft, and accidents in these planes have not been included in rate computations.

TABLE 15 – FLYING HOURS, NUMBER AND RATES OF MAJOR ACCIDENTS, FATAL ACCIDENTS AND FATALITIES FOR USAF INCLUDING COMPONENTS 1921 THROUGH 1958

(Includes ANG, AFR, MATS Navy Units, and Civil Air Patrol Aircraft in the USAF inventory. Rates computed on the basis of 100,000 Flying Hours)

a/ Overseas Accidents were not reported during war years.

b/ Accident data for the Air National Guard are included since 1947. This tabulation may, therefore, not necessarily agree with data published in prior years which excluded the ANG.

c/ Accidents and Flying Hours of Navy Units flying for MATS included since 1950.

a/ There is only one primary causing factor per accident. Since many accidents have multiple causes the total of "all" causes may exceed the total major accidents.

b/ Includes other crew member error, other personnel, miscellaneous unsafe conditions, weather and undetermined.

GROUND SAFETY

DEFINITIONS

The tables included in this section are USAF Ground Accident statistics approved and directed by the Air Force Regulation 32-1, dated 24 August 1948. In establishing the reporting system, standardized cost factors and definitions have been approved. The present standard accident costs for injuries and fatalities were established by the Air Force Regulation 32-2, dated 18 April 1956

ACCIDENT, GROUND

Any accident which occurs on or off an Air Force installation, base, or site which involves Air Force military personnel, Air Force civilian personnel on duty, or Air Force property. Reference paragraph 3, Air Force Regulation 32-2, dated 18 April 1956

ACCIDENT, PRIVATE MOTOR VEHICLE

A motor vehicle accident involving only non-Air Force motor vehicle or, if both Air Force and non-Air Force motor vehicles were involved, the Air Force motor vehicle was not being operated at the time of the accident. Motor vehicles which are not Air Force property will be considered as private motor vehicles. Vehicles which are the property of Government agencies other than the Air Force will also be considered as private motor vehicles.

ACCIDENT, USAF MOTOR VEHICLE

An accident involving the operating of an Air Force motor vehicle which results in either disabling or non-disabling injury to Air Force personnel and/or non-USAF persons and/or damage aggregating $25.00 or more to Air Force motor vehicles, or to other vehicles or property without regard to ownership.

ACCIDENT, USAF PROPERTY

An incident resulting from Air Force ground operation wherein Air Force property is accidently damaged in amount of $25.00 or more.

COST PER CAPITA

$$\text{Cost per Capita} = \frac{\text{Cost of Injuries} \,/\, \text{Cost of Fatalities} \,/\, \text{Cost of Property Damage}}{\text{Total Command Strength (Average Military and Average Civilian)}}$$

COST YARDSTICK

INJURY	JAN 1949 THROUGH DEC 1950		JAN 1951 THROUGH DEC 1951			JAN 1952 THROUGH Dec 1957	
	Military	Civilian	Military		Civilian	Military	Civilian
			Officer	Airman			
Non-Disabling. . .	$ 4.25	$ 4.25	$ 6.00	$ 6.00	$ 6.00	$ 7.00	$ 7.00
Temporary Total. .	441.00	119.00	32.00/Day	23.00/Day	17.00/Day	30.00/Day	14.00/Day
Permanent Partial.	441.00	119.00	37,000.00	37,000.00	8,500.00	43,000.00	10,500.00
Permanent Total. .	441.00	119.00	57,000.00	57,000.00	70,000.00	63,500.00	70,000.00
Fatal.	19,565.00	9,955.00	26,500.00	26,500.00	20,000.00	31,500.00	25,000.00

DAYS OUT OF SERVICE

Air Force vehicle "days out of service" and Air Force aircraft "days out of service" will be estimated total number of calendar days that the particular piece of equipment is out of service as a result of a ground accident, beginning with the day after the accident occurs and continuing up to the day on which it is estimated that the equipment will return to service.

INJURY, DISABLING

An injury which results in death, permanent total, permanent partial injury, or temporary total injury which in the opinion of competent medical authority makes it impossible for the injured to return to work or duty at any time during the next calendar day following date of injury.

INJURY, NON-DISABLING

A non-disabling injury is an injury which, although requiring medical attention, would not keep the injured person from performing his regularly assigned duties during the next calendar day or any subsequent day. This type is generally known as a first-aid case.

DEFINITIONS

PERSONNEL, CIVILIAN

Includes citizens and/or residents of the United States, its territories, and Canada, who are employed by the US Air Force and are paid from appropriated funds. Excludes Foreign Nationals.

PERSONNEL, MILITARY

Comprises officers and airmen serving on extended active duty with the Air Force. Members of other United States military services serving on extended active duty with Air Force units are included as Air Force Military Personnel.

RATES

Frequency rates were computed to the following formulas:

$$\text{Civilian Injury Rate} = \frac{\text{Number of Civilian Disabling and Fatal Injuries} \times 1{,}000{,}000}{\text{Total Hours of Civilian Employment}}$$

$$\text{Military Injury Rate (On Duty)} = \frac{\text{Number of Military Disabling and Fatal Injuries "On Duty"} \times 100{,}000}{\text{Total Military Man-Days of Exposure} \times 1/3}$$

$$\text{Military Injury Rate (Off Duty)} = \frac{\text{Number of Military Disabling and Fatal Injuries "Off Duty"} \times 100{,}000}{\text{Total Military Man-Days Exposure} \times 2/3}$$

$$\text{USAF Motor Vehicle Rate} = \frac{\text{Number of USAF Motor Vehicle Accidents} \times 100{,}000}{\text{Total USAF Motor Vehicle Mileage}}$$

STATUS

Indicates whether or not the person involved in the accident was on or off duty and whether the accident occurred on or off a military installation, base or site.

STRENGTH (AVERAGE), CIVILIAN

The derived civilian employee strength is developed by dividing the total civilian payroll man-hours worked (including legal holidays) during the report period by the standard number of work hours during the report period:

TOTAL CIVILIAN

$$\text{Derived Civilian Strength} = \frac{\text{Man Hours Worked}}{\text{Number of Standard Work Hours}}$$

The number of standard work-hours during the report period are the number of calendar days in the month minus Saturdays and Sundays multiplied by 8. Example - there were 21 paid payroll work-days in January 1955, therefore, the standard number of work-hours in the month was 21 multiplied by 8, or 168 hours.

STRENGTH (AVERAGE), MILITARY

The average military strength is obtained by dividing the total military man-days of exposure by the number of days in the report period:

$$\text{Average Military Strength} = \frac{\text{Exposure}}{\text{Number of Days in the Report Period}}$$

The total military exposure is the sum of daily assigned strength figures as shown on all morning reports for the entire report period.

TIME LOSS (CIVILIAN)

Time loss for a civilian employee will be the estimated total number of days he will be unable to report for work as a result of the injury beginning with the first day he is unable to report for work and continuing up to the date of return. Sick leave, annual leave, and holidays will be included in the time loss.

TIME LOSS (MILITARY)

Time loss for a military person will be the estimated number of calendar days he is unable to report for duty as a result of an accidental injury, beginning with the first day he is unable to report for duty and continued up to the date of return.

USAF AIRCRAFT DAMAGED FROM GROUND ACCIDENTS

USAF Aircraft damaged as the result of a ground accident.

TABLE 23 — SUMMARY — USAF GROUND ACCIDENT

(Cost yardstick changes for USAF Ground Accidents are shown on chart under "Definitions". Beginning with July 1953

Aircraft & Materiel

PART IV

AIRCRAFT — MATERIEL

INTRODUCTION AND DEFINITIONS

The tables included in this section provide summary data pertaining to the procurement, production, inventory, status, deployment, and disposition of USAF aircraft, and similar information for other major items or materiel in the USAF during Fiscal Year 1958. Production data for aircraft and guided missiles are obtained under the provision of AF Regulation 70-11, dated 4 October 1957.

In addition to information reflecting the status of aircraft procurement and production, these data contain the following information by type and model of aircraft: total aircraft inventory, active and inactive aircraft inventory, planned program, aircraft operationally and not operationally ready, aircraft in storage, aircraft excess to all military requirements, aircraft production, gains and losses to the aircraft inventory, and a summary of active and inactive aircraft by functional distribution.

The classification of aircraft herein is in accordance with AF Regulation 65-60, dated 15 June 1955, and T.O. 1-1-81, dated 15 August 1955 with revisions. The type classification is generally based upon the type designator or the prefix preceding the basic type designator of each aircraft model. A prefix is assigned an aircraft model when the aircraft is modified to perform a function (indicated by the prefix) other than its basically designated purpose.

The following definitions apply to the terms herein -

AIRCRAFT: A heavier-than-air vehicle, capable of flight, which has incorporated in its prime design the ability and/or requirement for human occupancy. (Ref T.O. 1-1-81)

OPERATING ACTIVE AIRCRAFT: Those aircraft which are currently and actively engaged in supporting flying missions, administrative aircraft, test aircraft including those test aircraft on bailment, aircraft provided for the required combat readiness training of rated personnel not presently assigned to tactical units or crew positions.

NON-OPERATING AIRCRAFT: Those aircraft in preparation for possession by units or test activities through any of the logistical processes of supply, maintenance, and modification; and those aircraft which are excess to command requirements.

INACTIVE AIRCRAFT: Those aircraft in the inventory other than operating active and non-operating active aircraft, such as aircraft on loan and bailment (except bailed for test, maintenance and modification); aircraft for which there is no longer a requirement in the active inventory, including those aircraft that have been accumulated in excess of immediate possible future needs and aircraft in the process of being dropped from the total aircraft inventory.

ACCEPTANCE: Aircraft which have been shop-assembled and fully inspected by constituted USAF or Navy production authorities, and the title, responsibility, and accountability assumed by the contracting agency of recipient.

OPERATIONALLY READY: An aircraft which, without additional repair or maintenance, ~~is safe and capable of normal flight operations. This does not necessarily~~ indicate that the aircraft is capable of performing a specific mission such as combat, photo, etc., ~~but merely that the aircraft is flyable and that the DD Form 781 does not bear a red cross. Weather, runway conditions, shortage of operations personnel, or other factors not relating to the aircraft itself will not cause an aircraft to be reported "not operationally ready".~~

ANORS: "Aircraft Not Operationally Ready for Supply" are those aircraft not operationally ready due to supply difficulties. This includes any time during which an aircraft lacks any component or part regardless of whether it is a part of the airframe, engine, or a system (i.e., fire control, radar, NAVAID, etc.). Aircraft will not be reported when awaiting parts for performance of modification in accordance with AFR 57-4, unless the modification will eliminate deficiencies which are deterring operational status and required parts have been requisitioned from normal supply source at the station where the aircraft is located and notification has been received that the required parts are unavailable.

ANORTOC: "Aircraft Not Operationally Ready For Technical Order Compliance" are those aircraft which are not operationally ready due to compliance with Technical Order, as specified in TO-00-20A-1 and exclude periodic maintenance and inspection.

ANORM: "Aircraft Not Operationally Ready for Maintenance" are those aircraft which are not operationally ready due to periodic maintenance or malfunction, defect or damage.

OTHER: "Aircraft Not Operationally Ready For Other Reasons" are those aircraft that were not operationally ready due to awaiting flight test, disassembly for shipment, grounded by proper authority, awaiting transfer and enroute.

AIRFRAME WEIGHT: The weight of the assembled principal structural components of an aircraft. It includes hull or fuselage, wings, stabilizers, vertical fins, control surfaces, landing gear, and nacelles.

GUIDED AIRCRAFT ROCKET: A type of self-propelled aircraft armament normally carried by piloted aircraft which, after launching, can be guided to the target which it destroys by means of an explosive war-head.

DRONE: Any aircraft or missile modified or produced to perform the mission of a target for weapons' evaluation or crew training and have incorporated into their prime design the ability to be flown by remote control.

USAF GUIDED MISSILES: An unmanned vehicle moving above (about) the earth's surface whose trajectory or flight path is capable of being altered by a mechanism within the vehicle.

USAF AMMUNITION: All stocks of serviceable and suspended Air Force ammunition items physically on hand.

TABLE 54 —USAF AIRCRAFT INVENTORY NET GAIN AND LOSS SUMMARY—AS OF 30 JUNE 1958 (CONTINUED)

(CUMMULATIVE FROM FIRST ARTICLE, EXCLUDES EARMARKED AIRCRAFT)

(INCLUDES AIR FORCE AND AIR NATIONAL GUARD)

FOOTNOTES:

1. A breakdown of losses is shown only for models produced since July 1949 as the information is not readily available for the earlier models. Net losses for converted models are included with the losses for the original models.
2. Includes USAF, Air Force Reserve and Air National Guard.
3. Includes only those converted models that remain in the inventory as of 30 June 1958.

A. Includes 62 aircraft produced as B-36B's. Three aircraft were lost as B-36B's and 59 were converted to B-36D.

B. Accepted as RB-52B's. However, the Aircraft Production Schedule shows those RB-52B's will be changed to B-52B's in the near future, which has been accomplished this fiscal year.

C. There were 152 RF-80A's manufactured as RF-80A aircraft from July 1946 through March 1947. There are also RF, TF and QF-80A, B and C aircraft being modified to and from F-80A, B, C; RF-80A and XRF-80A aircraft.

D. Includes 12 F-84F's produced for MAP temporarily reported in USAF inventory.

E. Includes 1 YF-84F that was converted from an F-84E and then subsequently converted to YRF-84F and lost to class 32.

F. Includes 471 F-84G's which were diverted to the USAF from MAP production.

G. Includes 4 F-86F's from the F-86E procurement program.

H. Includes 45 F-86F's produced for MAP temporarily reported in USAF inventory.

I. Accepted as F-102A's. However, the Aircraft Production Schedule shows four F-102A's will be changed to YF-102A's in the near future.

J. Twenty-two RB-36E's were produced as B-36A's and 1 as YB-36.

K. Includes 41 RF-84F produced for MAP temporarily reported in USAF inventory.

L. Some T-6C and T-6D aircraft are remanfactured as T-6G and LT-6G aircraft. Net losses for the original series are not shown because the exact quantity of each series being remanfactured is not available.

M. Three C-97's produced as KC-97A's.

N. Includes 2 C-119G's produced for MAP temporarily reported in USAF inventory.

O. Includes 20 T-6G's which were accepted for the USAF from the MAP procurement program.

P. H-13D and H-13E aircraft were originally accepted for the Department of the Army and were subsequently reassigned to the USAF (Air Training Command) to assist in training Army pilots.

Q. Includes 2 H-13G's accepted from Army contracts.

R. Includes 5 H-34A's produced for Army temporarily reported in USAF inventory.

Aircraft Engines

PART V

AIRCRAFT ENGINES

INTRODUCTION AND DEFINITIONS

Data on production and inventory of aircraft, missile and drone engines are presented in this section. Engine production data are obtained under the provisions of AFR 70-11, dated 4 October 1957, while engine inventory data are obtained under the provisions of AFR 65-20, dated 12 March 1957.

The following definitions apply to the terms as used in this publication:

ACCEPTANCES: An aircraft engine that has been shop-assembled and fully inspected by authorized USAF or Navy plant representatives, and for which the title, responsibility, and accountability have been assumed by the contracting agency or recipient.

INSTALLED ENGINE: Serviceable or reparable engine assets which are either physically mounted on aircraft, missile or drone; or undergoing organizational maintenance for reinstallation in an aircraft, missile or drone.

UNINSTALLED ENGINE (formerly designated as SPARE): An engine available for distribution or installation, but without controls or built up accessories which convert it to a power pack.

REPARABLE ENGINE: Engines determined to be operationally unsuitable, requiring other than organizational or field maintenance.

SERVICEABLE ENGINE: Engines determined to be operationally suitable for installation, or are either awaiting or undergoing organizational or field maintenance.

Aviation Fuel & Oil

PART VI

AVIATION FUEL AND OIL

INTRODUCTION AND DEFINITIONS

The information contained in this section summarizes USAF aviation fuel and oil, world-wide, for Fiscal Year 1958.

The data shown in the following tables include fuel and oil inventories, issues and receipts.

DEFINITIONS: The following definitions apply to the terms herein:

AVIATION FUEL - applies to aviation gasoline and jet fuel. Aviation gasoline is graded by octane rating in order - 115/145, 100/130, 91/96 and 80. Jet fuel consists of JP-4 and JP-5 types.

AVIATION OIL - a term which applies to aircraft engine lubricating oil, graded thus - 1120, 1100, 1080, 1065; jet oil - 1015, 1010, 1005; and special jet-7808. It includes reused product.

INVENTORY - product on hand at base, terminal, and in transit.

IN TRANSIT - product on way to destination. Applies to both overseas and zone of interior.

ISSUES - includes fuel consumption for flying purposes, fuel utilized for other than direct flight operations; i.e., marine equipment, engine block testing, and modification centers. "Issues" is broken down into four types: charge sales (issues to users of USAF, USAF Reserve and Air National Guard Aircraft, and other than aircraft), reimbursable sales to other than USAF Aircraft, issues for cash, and exchange account (Canadian AF or Canadian Navy).

RECEIPT - The increase in inventory caused by receipt of incoming shipment of product.

Vehicles

PART VII

VEHICLES

INTRODUCTION AND DEFINITIONS

The tables included in this section provide summary data on the status of the USAF World-Wide Vehicle Inventory. Air Force Regulation 77-1, and Air Force Manual 171-5, Volume II constitute the basic authority for the system.

BASE STOCK. Vehicles on the property account of the base supply officer.

DEPOT STOCK. Vehicles in a depot for depot repair or storage (includes vehicles at commercial sites).

EXCESS TO INDIVIDUAL ORGANIZATIONS. Vehicles in excess to requirements of the individual responsible organizations. (These vehicles are not necessarily excess to total Air Force needs.)

INTRANSIT. Vehicles enroute from the manufacturer to a command, or from one command to another.

IN-USE. Vehicles assigned for use.

WAR READINESS AND SPECIAL PROJECTS. Vehicles committed to AF-GEN-1-50-OPR (Sea Weed and Night Life) and other special projects.

UNECONOMICALLY REPARABLE. Vehicles which are uneconomically reparable in accordance with TO 36A-1-70 (Maximum Repair Allowances for USAF Vehicles).

UNREPORTED STATUS. Vehicles which have been incorrectly reported, i.e., one of the above terms has not been used to correctly identify the status of the vehicle.

INDIGENOUS. Refers to off-shore procurement and occupation cost acquired vehicles.

War Readiness Materiel

PART VIII

WAR READINESS MATERIEL

(Previously designated: MOBILIZATION RESERVE)

INTRODUCTION

The data on selected items of War Readiness Materiel (WRM) included in this section are based on information submitted in accordance with Air Force Regulation 67-43, and changes thereto.

The tables provide summary data depicting pre-stockage of equipment, supplies, and war consumables under two AF-GEN sub-projects: PROJECT SEAWEED, PROJECT NIGHT LIFE and FLYAWAY KITS.

DEFINITIONS

AF-GEN: The world-wide Air Force program for the distribution of those WRM items on hand or on order.

PROJECT SEAWEED: The project which directs the pre-stocking and pre-positioning of certain WRM supplies and equipment at overseas depots and bases to meet war plan requirements.

PROJECT NIGHT LIFE: The project which directs the pre-stocking and pre-positioning of certain WRM assets as follows:

At Continental U. S. bases to support immediate and continued operations after D-Day.

At Continental U. S. depots to be retained as a bulk reserve not required to be prepackaged.

STATION SET: Constitutes minimum requirements of mission-type equipment for wartime operations under austere conditions.

AEE: Absolute Essential Equipment. A list of station and housekeeping set items which, because they are considered the absolute minimum required to mount the first strike, must be available at the forward base.

FLYAWAY KIT: An air-transportable package of specified aircraft spare parts and technical supplies required to maintain a particular type and quantity of aircraft for thirty (30) days combat at wartime operating rates.

a/ Space allocation for all material in covered storage was transferred from Marietta, Pennsylvania, to the Department of the Navy, Mechanicsburg, Pennsylvania, on 1 June 1958. Since that date, the Navy has provided storage for these materials for Air Force convenience. Shipments commenced subsequent to that date and have since been completed. (Amounts not included in total).

b/ Number of empty flasks on hand. (Amount not included in total).

Unit Authorization List

PART X

UNIT AUTHORIZATION LIST

INTRODUCTION AND DEFINITIONS

The tables included in this section provide summary monetary data on the Unit Authorization List portion of the Organizational Equipment Allowance and Authorization System. The Air Force Regulations governing the system are 67-83, 67-92, and 67-96. Detailed instructions are contained in Volume XXI of the Air Force Supply Manual 67-1, and Volumes II and III of the Air Force Technical Data Processing Manual 171-5.

ORGANIZATIONAL EQUIPMENT. Nonexpendable and mission type expendable equipment, regardless of the procurement source, which is prescribed for and authorized to an organization by an approved Unit Authorization List (UAL).

UNIT AUTHORIZATION LIST (UAL). A list of required organizational equipment consisting of Unit Mission Equipment (UME) and Unit Support Equipment (USE) authorized and in-use (or on hand) quantities and other pertinent data.

UNIT MISSION EQUIPMENT (UME). The column of the Unit Authorization List applying to units which are constituted in accordance with a DAF AFOMO Letter. Normally includes organizational clothing and equipment as contained in Table of Allowance (T/A) 1-21; and appropriate items of organizational equipment as contained in the Master Equipment Allowance List (MEAL). Equipment listed in Special List of Equipment (SLOE) and Tentative Table of Equipment (TTE) may also be included when specific approval is granted by a DAF AFOMO Letter. Specifically, that portion of the organizational equipment required in performance of the unit mission, and which accompanies the unit upon relocation.

UNIT SUPPORT EQUIPMENT (USE). The column of the Unit Authorization List applying to units which are organized in accordance with major air command General Order, or to augment Unit Mission Equipment for constituted units. This includes organizational equipment, other than those items authorized as Unit Mission Equipment, required to support the mission of the unit while at a specific base; and which normally does not accompany the unit upon relocation.

Fiscal

PART XII

FISCAL

INTRODUCTION

This section reflects the funding operations of the various Air Force Appropriations and/or funds with the respective major programs for the fiscal years indicated in the title of each table. Some of the related budget tables are to be found in other areas of the publication such as reports on the Reserve Forces, Mutual Assistance Program, and Research and Development.

DEFINITIONS

APPROPRIATION
An authorization by an Act of Congress to incur obligations for specified purposes and to make payments therefor out of the Treasury.

APPROPRIATION ACCOUNT
An account established to make amounts available for obligation and expenditure from the Treasury. In Budget-Treasury Regulation 1, appropriation accounts include not only accounts to which money is directly appropriated, but also revolving funds, working funds, trust funds, etc. Appropriation accounts do not include official deposit funds.

APPROPRIATION REIMBURSEMENT
Consists of earnings or collections for commodities, work, or services furnished or to be furnished between appropriations or to an individual, firm or corporation to be credited to an appropriation account.

BUDGET PROGRAM
A subdivision established under an appropriation to identify a significant segment of Air Force operations.

EXPENDITURE
The amount of liability incurred for goods and services received or assets acquired for which payment has been made. Synonymous with disbursements less expenditure refunds.

FUND
A sum of money or other resources, usually segregated, to be expended or used for specified purposes.

OBLIGATION
The amount of an order placed, contract awarded, or service received, or any transaction which establishes a legal requirement for the ultimate disbursement of funds.

OBLIGATIONS INCURRED
Amounts of orders placed, contracts awarded, services received, and similar transactions during a given period requiring future payment of money.

PROJECT ACCOUNT CLASSIFICATION
In appropriation and fund accounting, an approved system of subdivision of an appropriation or fund for administrative use.

REAL PROPERTY
Any interest in land and anything permanently attached to it, including structures, fixtures, and other improvements.

UNLIQUIDATED OBLIGATION
An obligation incurred for which payment has not been made.

UNOBLIGATED BALANCE
That portion of an authorization which has not been obligated.

TABLE 88 - DEPARTMENT OF THE AIR FORCE – STATUS OF UNLIQUIDATED OBLIGATIONS AT BEGINNING AND END OF FISCAL YEAR 1958

(In thousands of dollars. Figures in parentheses denote minus amounts.)

TABLE 91 – DEPARTMENT OF THE AIR FORCE – EXPENDITURES AND AMOUNTS AVAILABLE FOR EXPENDITURE DURING FISCAL YEAR 1958 (CONTINUED)

(See first page of this table for headnotes)

APPROPRIATION AND PROGRAM YEAR	UNEXPENDED BALANCE 1 JULY 1957	FY 1958 NEW EXPENDITURE AUTHORITY	CASH AND ADMINISTRATIVE TRANSFERS	AVAILABLE FOR EXPENDITURE FY 1958	NET EXPENDITURES FY 1958	ACTION PURSUANT TO P. L. 798 RESTORATIONS	ACTION PURSUANT TO P. L. 798 WITHDRAWALS	UNEXPENDED BALANCE 1 JULY 1958
Consolidated Working Funds	60	-	-	60	(28)	42	-	130
Replacement of Personal Property Sold ("M" Account)	21 d/	-	-	21	2	10	-	29

Amounts do not necessarily add to totals due to rounding.

a/ Action pursuant to P. L. 798, 84th Congress includes unobligated balances transferred to or from the Treasury and unliquidated balances of lapsing appropriations transferred to "M" Accounts.

b/ This over-expenditure is due to expenditures made during Fiscal Year 1958 for procurement for military assistance Program Common Item Orders on which reimbursement will be received in subsequent years.

c/ The Unexpended Balance for this account was erroneously reported on the FY 1957 Table 93 as $1,441 instead of $574.

d/ This account was erroneously omitted from the FY 1957 Table 93.

e/ These funds have been transferred to Treasury Miscellaneous Receipt Account 575371 "Deposits, proceeds from sales of scrap, salvage and surplus material, Air Force".

a/ Inasmuch as fiscal records for the Military Construction Appropriation are not maintained by program year, data for this appropriation for Fiscal Year 1958 and prior years are shown on the table for the Fiscal Year 1958 program.

b/ Represents balance of Treasury expenditures applicable to Air Force appropriations not distributed by budget program and/or program year.

- Entry not applicable.

0 No amount reported.

NOTE: This table includes data for Appropriation Transfer Accounts for convenience of presentation.

TABLE 98 - ACTIVITY IN AIR FORCE MANAGEMENT FUNDS DURING FISCAL YEAR 1958

The Air Force Management Fund was established under Section 406, Public Law 216, 81st Congress, National Security Act Amendments of 1949 to provide a means for simplifying administration of and bookkeeping for financial transactions of either a continuing or a one-time project to be financed by two or more appropriations, where the expenditures are not readily allocable to such appropriations initially. (Figures in parentheses indicate minus amounts.)

Transportation

PART XIII

TRANSPORTATION

INTRODUCTION

The data included in this section represent the actual movement of people and things world-wide.

MATS airlift as shown herein represents all operations that carried the traffic allocated by the Joint Military Transportation Committee (JMTC). It includes the utilization of military aircraft as well as commercial aircraft procured to support the JMTC requirement; it does not include the airlift procured by MATS at request of the Departments of Army, Navy, and Air Force.

Ocean Transportation as shown herein represents all traffic arranged for by the Military Sea Transportation Service on the following types of ships:

CARGO - (1) MSTS Ships: MSTS operated passenger and cargo vessels and MSTS contractor operated vessels.

(2) Commercial ships on time or voyage charter, shipping contract, and berth term.

(3) Maritime administration ships.

(4) Navy ships.

PASSENGER - MSTS Vessels, contract space on commercial vessels, and space on cargo vessels as required.

Tables reflecting movements out of AF CONUS Installations via commercial transportation refer to traffic within the CONUS where movement is accomplished by a bill of lading or a transportation request. Data as shown herein include movements by Air Force for other services and do not include movements for the Air Force by other services. Data are for the period in which traffic moved rather than for the period of payment for transportation service.

DEFINITIONS

LOGAIR - Commercial contract airlift in the Continental U. S. controlled by the Air Materiel Command and designed to provide scheduled air transportation for the movement of high priority cargo.

LOGLAND - Surface transportation system developed by the Air Force to provide rapid, controlled movement of small-lot shipments in scheduled motor common carrier service. The system services military installations and contractors' facilities.

LOGSEA - System developed to provide expeditious ocean movement of specified categories of Air Force and Air Force sponsored materials from Continental U. S. shipping activities to oversea destinations.

SPACE REQUIRED TRAVEL - Transportation space against which a requirement was accepted and an assignment made.

SPACE AVAILABLE TRAVEL - Space which is surplus after all space required traffic has been accommodated and which would otherwise be unused.

MEASUREMENT TON (M/T) - Unit of volume displacing 40 cubic feet of space.

505282 O - 59 - 14

Installations

PART XIV

INVENTORY OF INSTALLATIONS, MILITARY CONSTRUCTION PROGRAM, AND USAF REAL PROPERTY

The information in this section covers a variety of subject matter such as: Installations Inventories, Construction and Real Property. The charts on Cost of Maintenance and Operations of USAF Real Property, included in previous year's Statistical Digests, have been excluded because data for FY 58 have not been received in acceptable form.

INVENTORY OF INSTALLATIONS

Definitions of Categories:

Operational: An installation, whose principal use is to provide support for Air Force combat and/or combat support, missile or flying units of squadron strength or greater.

Operational Flying Support: An installation whose principal use is to support flying activities other than combat or combat support flying forces (equivalent of squadron strength or greater).

Operational Non-Flying Support: An installation without flying facilities whose principal use is to support headquarters of numbered air forces or higher echelons.

Training: An installation whose principal use is to support a training mission.

Research and Test: An installation whose principal use is to support major research, development, or employment suitability testing missions.

Logistical: An installation whose principal use is to support a major depot or the Air Materiel Command Headquarters.

Contract Flying School: An installation in which the USAF has no real property interest but used by the USAF to support a training mission.

Foreign Base: An installation or location belonging to another government in which the USAF does not have a real property interest, but where in accordance with governmental agreements, the USAF has certain operational and budgetary responsibilities.

Industrial: A public or private plant which is operated by a contractor and is controlled by the USAF through ownership, lease, or permit, which is utilized for: the establishment or expansion of industrial capacity to produce, modify, maintain, and service aircraft, missiles, and related components, and for the storage of machine tools and equipment in support of such programs.

Ancillary: An installation subordinate to another installation of the USAF which is identifiable above.

Tenant on Other Services: An installation belonging to another service, Government, Department or Agency upon which the USAF has a unit or activity stationed as a tenant (other than Foreign Bases).

Active: An Air Force installation in use for the performance of an Air Force function.

Inactive: An Air Force installation not in use for the performance of an Air Force function.

MILITARY CONSTRUCTION PROGRAM

Definitions -

Authorized: The USAF Military Construction Program as approved by Congress.

Current Program: The scope and dollar amount deemed necessary for the completion of a line item determined essential to the mission of the USAF.

Approved Program: Scope and dollar amount approved for implementation of construction and funding by appropriate authority of OSD and/or BOB through apportionment, or program clearance.

Operational Program: The scope and dollar amount released to USAF construction agencies as approved for construction, obligation, and expenditures for the completion of a line item.

USAF REAL PROPERTY

These tables present the real property (facilities and land) controlled by the Air Force. The costs shown represent the cost at time of acquisition to the U. S. Government, and do not reflect the current value or estimated replacement costs.

1/ Obligations and Expenditures have been changed from previous presentations to include the other military construction programs; Family Housing, Mutual Security and the Spanish Management Fund. While these programs are always included in the other columns (Authorized, Available, Apportioned, Released, and Contract Award), they have not been reflected previously for Obligations and Expenditures.

a/ The difference between total releases in this chart and total operating program in the above chart represents the net amount of projects in the administrative pipeline.

Military Assistance Program

PART XV

MILITARY ASSISTANCE PROGRAM (MAP)

DEFINITIONS — The following definitions apply to the terms used herein:

GRANT AID - Military assistance furnished gratuitously to eligible foreign countries, funded through annual appropriation by Congress.

MUTUAL SECURITY MILITARY SALES - Transactions for military materiel and services which have been ordered and paid for by eligible recipient countries. Such transactions were formerly designated as Reimbursable Military Assistance.

MAP AIRCRAFT - Aircraft in foreign countries provided by the USAF under Military Assistance Program.

AIRCRAFT ATTRITION - Aircraft lost from MAP inventories by reason of accident, obsolescence, or in combat.

MOBILE TRAINING TEAMS - A group of qualified personnel organized and equipped to provide training instruction, guidance, or assistance to recipient countries under the Military Assistance Program.

TECHNICAL REPRESENTATIVES - Civilian technical specialists obtained on a formal contract basis from manufacturers of Air Force equipment or other concerns to provide instruction or guidance in the operation and maintenance of newly designed or complicated equipment to recipient countries under the Military Assistance Program, and whose skills are not available from military sources.

SPACE - Represents one man-course completed by one student in one class covering a specific subject of instruction.

MAP EMPLOYEES - Category of civilian personnel engaged in activities required in carrying out the Military Assistance Program as administered by the Air Force. Employment is in terms of work units such as man-month equivalent.

Military Personnel

PART XVI

MILITARY PERSONNEL

DEFINITIONS

ACTIVE FEDERAL MILITARY SERVICE
Normal full-time duty with a Federal Military Service as opposed to inactive duty status of Reservist.

AERONAUTICAL STATUS
The general grouping of Air Force personnel with reference to their aeronautical rating, aeronautical designation, and flying status. The principal groupings are:

1. Rated Personnel: USAF Officers who have been awarded an aeronautical rating of Pilot, Aircraft Observer, Navigator or Flight Surgeon on personnel orders per authority AFR 50-7.

2. Non-Rated Personnel: Personnel who do not have an aeronautical rating of Pilot, Aircraft Observer, Navigator or Flight Surgeon, including personnel who have aeronautical designation, e.g. Aviation Medical Examiner, Flight Nurse, Non-Rated Crew Member, and Non-Rated Non-Crew Member, even though such personnel may be on Flying Status.

AIR FORCE OFFICER QUALIFYING TEST (AFOQT)
The AFOQT battery is given to newly commissioned officers and to persons being considered for officer training. These tests are designed to predict proficiency in AF specialties or success in training, classifying individuals by aptitude clusters.

AIR FORCE COMMAND STRENGTH
All military personnel (permanent party and pipeline, USAF, SCARWAF, and Navy) who are assigned to Air Force units. This strength is chargeable against the personnel ceiling of the Department of the Air Force and is under the command jurisdiction of the Chief of Staff, USAF. (SCARWAF discontinued as of 1 March 1956: found only in historical data prior to that date.)

1. Command Strength, Continental: The total strength of military personnel who are assigned to units of which the Headquarters have permanent station location in the Continental US or to units which are enroute between Continental and Overseas stations but are assigned to a Continental Command or the Continental US portion of a Global Command.

2. Command Strength, Overseas: The total strength of military personnel who are assigned to units of which the Headquarters have permanent station location outside the Continental US or to units which are enroute between Continental and Overseas Stations but are assigned to an Overseas Command or to the overseas portion of a Global Command.

3. Command Strength, Worldwide: The total strength of personnel assigned to Air Force units (USAF and SCARWAF) regardless of location. (SCARWAF discontinued as of 1 March 1956; found only in historical data prior to that date.)

AIR FORCE DEPARTMENTAL STRENGTH
The total strength of military personnel commissioned, appointed, or enlisted in the United States Air Force, whether or not such personnel have been placed on duty with another Department.

AIR FORCE PERSONNEL
A general term comprising all military personnel (USAF, SCARWAF, or Navy) assigned to Air Force Units. (SCARWAF discontinued as of 1 March 1956; found only in historical data prior to that date.)

AIR FORCE SPECIALTY (AFS)
A grouping of positions which require common qualifications. An AFS is identified by a Title and Code.

505282 O - 59 - 17

MILITARY PERSONNEL (Continued)

DEFINITIONS

AIR FORCE SPECIALTY CODE (AFSC) - AIRMEN

A combination of meaningful digits used to identify an AFS. For example:

AFSC 68150 (Statistical Specialist)

68	Career Field (Statistical Analysis Data Processing and Programming)
1	Career Field Subdivision (Statistical Services)
5	Skill Level (Skilled)
0	Specialty (Statistical Specialist)
68150	

ARMED FORCE QUALIFICATION TEST SCORE (AFQT SCORE)

The test contains questions on arithmetic reasoning, word knowledge, tool functions, and spatial visualization. The "Score" is a composite index of performance on all these items, and as such, is an indication of general learning ability.

CAREER AIRMAN

A Regular Air Force Airman who has completed one or more enlistments in the United States Air Force or serving first enlistment in the Air Force with prior service in the Army, Navy, Marine Corps or Coast Guard.

CAREER FIELD

A grouping of related AFS's involving basically similar knowledges and skills.

CAREER RESERVE OFFICER

A commissioned officer who has signed a statement that he desires to serve on active duty for an unlimited period.

COMMAND

A major organizational division of the United States Air Force.

1. Continental Command: A Command whose command headquarters and subordinate units are located within the Continental United States.

2. Overseas Command: A Command whose command headquarters and subordinate units are located outside the Continental United States.

3. Global Command: A command whose command headquarters is located either inside or outside the Continental US and whose subordinate units are located both inside and outside the Continental US.

COMMAND ABBREVIATIONS

Listed below are the commands and abbreviations as used in this area of the publication.

AAC	- Alaskan Air Command	PAF	- Pacific Air Force c/
ADC	- Air Defense Command	HQC	- Headquarters Command, USAF
AFAFC	- Air Force Accounting and Finance Center a/	HQ USAF	- Headquarters USAF
AMC	- Air Materiel Command	MATS	- Military Air Transport Service
APGC	- Air Proving Ground Command b/	NEAC	- Northeast Air Command d/
ARDC	- Air Research and Development Command	SAC	- Strategic Air Command
ATC	- Air Training Command	TAC	- Tactical Air Command
AU	- Air University	USAFA	- USAF Academy
CAIRC	- Caribbean Air Command	USAFSS	- USAF Security Service
CONAC	- Continental Air Command	USAFE	- US Air Forces in Europe

a/ Change effective September 1958

b/ Discontinued, 1 Dec 1957 and combined with ARDC

c/ FEAF was redesignated PAF-Pacific Air Force, 1 July 1957

d/ Northeast Air Command was discontinued 1 April 1957

CONTROL AIR FORCE SPECIALTY (Control AFS)

The AFS for manning purposes in which an airman's reassignment is projected, and which represents his highest usable skill based on total Air Force requirements. It should be his Primary AFS; however, if there is an Air Force surplus of the PAFS, it may be an additional awarded AFS, or an AFS in which the airman is being trained.

FIRST TERM AIRMAN

A Regular Air Force Airman with no prior military service, serving on his first enlistment in the United States Air Force.

DEFINITIONS

FRINGE BENEFITS
Benefits which are not a part of military pay made directly to USAF personnel, such as medical care for dependents, commissary privileges, etc.

FUNCTIONAL CATEGORY (APPLIES TO CAREER FIELD)
A grouping of airman career fields into four broad categories of highly technical, technical, semi-technical and non-technical jobs to be performed. (The grouping was changed to three during FY 1958)

FUNCTIONAL GROUP
The general grouping of personnel according to their status as to permanent party or pipeline.

GRADE IN WHICH SERVING
Grade as used in this report applies to grade in which individuals are currently serving.

IMMEDIATE REENLISTMENT
A reenlistment in the Regular Air Force within 24 hours within the same unit from which separated.

INACTIVE FEDERAL MILITARY SERVICE
All military service other than active, whether as a commissioned officer, warrant or flight officer, or in enlisted status. (AFR 35-3)

MUSTERING OUT PAY (MOP)
An extra sum of money payable to any of certain persons upon or after his release from active duty for service during wartime. It is not to be confused with terminal-leave pay.

NONCAREER RESERVE OFFICER
A commissioned officer whose present tour of duty has a definite scheduled date of separation.

ON-THE-JOB-TRAINING (OJT)
The training received by an individual in actual performance of his duties or while performing assigned duties.

OPERATING CONTROL
Control exercise over the combat or service operation of subordinate or other organizations. Operational control comprises those functions of a command involving the composition of subordinate forces, the assignment of tasks, the designation of objectives, and the authoritative direction necessary to accomplish the mission. Normally it does not include such matters as administration, discipline, or internal organization.

OPERATING LOCATION
A permanent duty station of an individual. A station is considered permanent if the orders specify a period of three months or longer. If no period is specified, the duty station is considered permanent.

PERMANENT CHANGE OF STATION (PCS)
A physical transfer of a person, group of persons, or unit from one station to another, made without plan or expectation of return to the station of first instance.

PERMANENT PARTY PERSONNEL
Those personnel assigned to an AF unit to perform their principal duty in the furtherance of the mission of the unit and who are chargeable against the specific authorization of the unit. (This includes assigned over strength).

PIPELINE PERSONNEL
Those USAF, SCARWAF, and Navy personnel who are (Assigned to an Air Force Unit temporarily for the purpose of administration and enlistment, reenlistment, replacement processing, training or hospitalization), i.e., those who are temporarily ineffective. Such personnel are not chargeable against the specific authorizations of the unit to which they are assigned while in a pipeline status. Prior to 1 May 1958, Pipeline consisted of transients, patients, and students; after that date it consisted only of Students and Patients. (SCARWAF was discontinued, 1 March 1956 and is found only in historical data prior to that date.)

TRANSIENTS
(1) Overseas Replacements: Personnel who are assigned to a unit specifically charged with administering processing for overseas movement. They are assigned for further re-assignment and movement to duty with an Overseas US unit. (Discontinued, 1 May 1958)

DEFINITIONS

(2) Returnees: Personnel who are assigned to a unit specifically charged with administering and processing individuals returned from overseas. They are assigned for further re-assignment and movement to duty with a Continental US Unit. (Discontinued, 1 May 1958)

(3) Fillers: Personnel assigned temporarily to a unit who are awaiting reassignment to another unit for duty, return to duty, training, or oversea movement. This group may include prior service enlistees; reenlistees within 90 days; and immediate reenlistees at a port upon return from overseas; personnel recalled to Extended Active Duty (EAD) while awaiting permanent duty assignment ; prisoners in confinement, and prisoners restored to duty; and personnel returned to military control from Dropped Form Rolls (DFR) status. It does not include personnel assigned to a unit or headquarters for further reassignment to a subordinate unit; overseas replacements; returnees or student personnel. (Discontinued, 1 May 1958)

(4) Patients: Hospitalized personnel assigned to an Air Force unit which administers personnel undergoing inpatient treatment at a medical facility operated by any of the three military departments.

(5) Supplementary Pilots: Graduates of basic pilot training performing supplementary pilot duties on active duty who did not sign a 4 year service contract. (Discontinued, 1 May 1958)

(6) Students: Personnel assigned in a training status to a unit charged with administration of individuals attending a formal course of instruction at a service or civilian school or a basic military training course.

PRIMARY AIR FORCE SPECIALTY (Primary AFS)
The awarded AFS in which an Officer or Airman is most highly qualified to perform duty.

QUARTERS ALLOWANCE
A basic allowance for quarters.

RATED PERSONNEL
USAF Officers holding a currently effective aeronautical rating.

REENLISTMENT
A person who reenlisted within 90 days from date of separation from a regular term of service.

REENLISTMENT INTENT
Expressed attitude toward reenlistment, made by airmen in response to attitude questions.

REGULAR AIR FORCE PERSONNEL
Department of the Air Force military personnel who, by enlistment, appointment, or commission, are members of the Regular Air Force.

RESERVE OFFICERS TRAINING CORPS (ROTC)
A training corps with units established at civilian educational institutions to qualify students for appointment as reserve officers.

SELECTED CHARACTERISTICS AND ATTITUDES

1. Selected: Used to imply that data presented in this report are not necessarily the complete body of data rather, data presented were picked subjectively, as being the most pertinent.

2. Characteristics: Refer to those elements which are more or less stable in nature, e.g., grade, age, marital status, rating etc.

3. Attitudes: Refers to responses to those questions in which individuals express degree of predisposed feeling for a thing, institution, or situation.

SCARWAF PERSONNEL
Those Department of the Army Personnel assigned as permanent party or pipeline to USAF or SCARWAF unit. (SCARWAF were discontinued as of 1 March 1956; found only in historical data prior to that date.)

DEFINITIONS

SKILL LEVEL
The level of an AFS which indicates the degree of qualification of airmen:

Skill Level	Fourth Digit of AFSC
Advanced	7
Skilled	5
Semi-skilled	3
Unskilled	1

SUBSISTENCE ALLOWANCE
A monetary allowance given a military person in lieu of food.

TECHNICAL SPECIALIST APTITUDE INDEX (TSAI) SCORE
A separate rating or score for each of certain AF Specialties, indicating the predictive aptitude of a person, arrived at by converting raw scores received on a battery of aptitude tests to a standard score.

TECHNICAL TRAINING
In a broad sense, that training for both military and civilian personnel in specialties other than those of an AF pilot or navigator, as in the phrase "Technical Training Air Force."

TOTAL FEDERAL MILITARY SERVICE
Includes both, active and inactive military service.

TRANSFER
Permanent change in departmental status, regardless of whether or not accompanied by a change of command status and/or unit assignment.

UNIVERSAL MILITARY TRAINING AND SERVICE ACT (UMTS)
The UMTS Act provides that all males who first entered the armed forces through Inactive Reserve Service or Active Duty after 19 June 1951 and before 9 August 1955, and who were not yet 26 years old when they entered, are subject to an eight-year period of Inactive or Active Duty or combination of such duty.

USAF PERSONNEL
Those Department of the Air Force military personnel assigned as permanent party or pipeline to a USAF of SCARWAF unit. (SCARWAF discontinued as of 1 March 1956; found only in historical data prior to that date.)

TABLE 134 — SUMMARY — MILITARY STRENGTH BY TYPE OF PERSONNEL, WORLDWIDE — 1 AUG 1907 THROUGH FY 1958

NOTE: Annual strength figures are as of 30 June except as noted. The history of the AAF falls into several well defined phases. On 1 August 1907, the Aeronautical Division of the Signal Corps was established, and this division continued until 1 July 1914 when it was reorganized as the Aviation Section of the Signal Corps. In May 1918 Army aviation was divorced from the Signal Corps by Presidential order and comprised the Division of Military Aeronautics, Bureau of Aircraft Production, and the Spruce Section which had been organized in November 1917. (The latter was created to expedite lumber production for aircraft construction.) Legislative cognizance of a separate arm occurred on 4 June 1920 when the Air Service was created. The Air Corps was established in July 1926 and continued until the reorganization of the Army in March 1942. At that time, the Army Air Forces came into being and continued under this organization until the three defense agencies were established in 1947. On 17 September 1947, James V. Forrestal took the oath of office as Secretary of Defense. The Air Force was officially separated from the Army the following day and the new agency, U.S. Air Force, was established, but it was not until 1948 that Air Force reporting was entirely divorced from the Army. Blank columns in the table below indicate that breaks were not available for the period; and other necessary explanations are covered with foot notes. Army personnel on duty with the US Air Force known as SCARWAF, were included in this table from September 1947 through June 1955. SCARWAF was discontinued as of 31 March 1956. USAF Academy cadets are not included in Worldwide Total.

TABLE 135 — PEAK STRENGTH OF MILITARY PERSONNEL BY FISCAL AND CALENDAR YEARS, WORLDWIDE — JUL 1939 THROUGH JUN 1958

(Peak strengths for the respective types of military personnel are underscored and other types are shown for the corresponding periods. The lowest point reached in Worldwide USAF military strength since World War II was in May 1947 with a total of 303,614 personnel - 43,076 Officers and 260,538 Enlisted. Table excludes USAF Academy Cadets.)

TABLE 169 — SUMMARY — REGULAR OFFICERS SELECTED FOR PERMANENT PROMOTIONS - FY 1950 THROUGH FY 1958

(All data indicates officers selected for promotion and not necessarily the number of actual promotions due to resignations, etc. All selections with the exception of lieutenants were made by Selection Boards. Data are based on the dates of the board reports which are not necessarily dates of actual promotions. Promotions for lieutenants were accomplished under Public Law 381, Sec. 508, 1947 and Sec. 8298, Title 10, US Code. According to this Law, all second lieutenants were automatically promoted to first lieutenant after completing three (3) years of Promotion List Service. Records of second lieutenants are reviewed under the provisions of AFR 36-11.)

TABLE 171 — SUMMARY — OFFICERS SELECTED FOR TEMPORARY PROMOTIONS BY FISCAL YEAR IN WHICH SELECTED — FY 1949 THROUGH FY 1958

(Selections made by Selection Boards do not necessarily mean actual promotions, as cancellations may be made because of normal attritions, etc. The table includes both regular and nonregular officers. The table excludes selections of Captains for promotions accomplished through other than Selection Board actions such as those selected under AFR 36-14 and AFR 36-30. Temporary promotions of Second Lieutenants to First Lieutenants are also excluded as such promotions were not accomplished by action of a Selection Board. Complete data on temporary promotion of lieutenants were not available for this publication.)

TABLE 173 — SUMMARY — ACCESSION STATUS CHANGES OF FEMALE MILITARY PERSONNEL — FY 1953 THROUGH FY 1958

(An Accession Status Change is the loss and immediate gain of the same individual and does not affect the strength of the Air Force. Figures in parentheses represent WAF Officers only and are included in open figures which includes both Air Force Nurses/Women's Medical Specialists and WAF Officers. Data in table below included in "Accession Status Changes of Military Personnel" Table).

TABLE 180 — SUMMARY — AGE DISTRIBUTION OF USAF OFFICERS BY GRADE IN WHICH SERVING, BY AGE — 30 NOV 1952 THROUGH 30 JUN 1958

(Prior to FY 1957, Age Grouping was not consistant throughout the fiscal years covered. Extreme and unknown ages were prorated for the same dates. The table depicts data developed for operational and planning purposes and will not necessarily agree with the official total strength or grade strength of the Air Force for the dates indicated.)

Military Training

PART XVII

MILITARY TRAINING

DEFINITIONS

COURSE LENGTHS

A table indicating the approximate length of some of the Air University courses follows:

Air War College	
Air War College (Top Secret)	10 Months
Air Command and Staff College	
Command and Staff School (Top Secret)	
For RAD US Personnel	39 Weeks
For Short-Tour US Personnel	15 Weeks
For Allied Personnel	21 Weeks
Air Weapons Course (Top Secret)	7 Weeks
Academic Instructor Course (Unclassified)	6 Weeks
USAF School of Aviation Medicine	
Aviation Medicine Specialty (Secret)	
Phase I	9 Months
Phase II	12 Months
Phase III	12 Months
Phase IV	2 Years
Clinical Laboratory (Unclassified)	16 Weeks
USAF Institute of Technology	
Advanced Logistics	9 Months
AF Advanced Management	1 Year
Bio-Radiology (Nuclear Engineering Effects)	2 Years
Reactor Technology	1 Year
Department of Defense Colleges	
National War College (Top Secret)	10 Months
Command and General Staff College (Top Secret)	10 Months

DEPOT LEVEL TRAINING

Depot Level Training is training designed to train Air Force personnel at depot level to overhaul equipment to bring it up to new standards.

FATALITY

This type of attrition is a student lost from a course by reason of accidental death, occurring as a direct result of training while actually undergoing instruction. (Students becoming fatalities by reason of death from other causes are reported as "Other".)

FOREIGN NATIONALS

Students who are detailed to the school in an attached status from any foreign country, territory, or possession, excluding those possessions and territories of the United States of America.

GRADUATES

Students who have successfully completed a course in which enrolled.

HOLDOVERS

Students who do not graduate when normally scheduled, but are still enrolled in the course. These students are reported as enrolled at the beginning of the ensuing period unless otherwise disposed of.

505282 O - 59 - 24

DEFINITIONS

LOSSES

Losses includes three groups of students:

1. Those who fail a course because of academic or flying deficiency.

2. Those who are losses from service because of fatality as a direct result of training.

3. Those who are withdrawn from a course because of illness, death, or any reason other than 1 and 2 above and who will not continue that course at a later date.

ON-JOB-TRAINING (OJT)

The training received by an individual in actual performance of his duties or while performing assigned duties.

STUDENTS

Training students are those personnel enrolled for the purpose of undergoing standardized courses of instruction at service schools conducted by the US Air Force, Army, Navy, and civilian schools and hospitals. (This group includes USAF, Army, Navy, and civilian students, or foreign nationals.) In referring to USAF Training, students fall under these categories:

1. Assigned - Personnel assigned to the school unit and for whom the school unit is responsible for morning report strength accountability.

2. Attached - Personnel attached to the school unit from other units of the Air Force or other Federal Agencies, who are scheduled to return to their respective units upon completion of the course, and for whom strength accountability is at all times maintained by such other units.

a/ Due to reporting date of 28 June 1949 preceding graduation date of 29 June 1949, 542 graduates were reported in July 1949 (FY 1950). FY 1949 production has been adjusted to include these graduates.
b/ Students transferred from Technical Training Air Force and/or Air University not included in entries but shown in "Under Instruction at end of Period", 254 in FY 1951; 4 in FY 1952; 51 in FY 1953.
c/ Two hundred and fifteen students transferred from Technical Training Air Force.
d/ Data does not audit because of transfers to and from other training courses.
e/ Rated and non-rated not shown separately prior to graduation from basic observer courses.
f/ Differences accounted for by eliminations due to faulty reporting and reinstatement of certain students.
g/ Includes formal training performed by TAC previously reported separately.
h/ One hundred and three students undergoing training when course was discontinued, 59 holdover losses.
i/ Difference in number under instruction at end of period (FY 1956) and beginning of period (FY 1957) due in part to exclusion of students in Celestial Navigation phase, B-47, and Special Co-pilot Phase, B-47 in FY 1956 and holdover losses/or gains.
j/ Nine officers transferred to Preflight Navigator Training Courses; one student transferred to Preflight Pilot Training.
k/ One student transferred from Multi-Engine to Single Engine Course.
l/ Tactical Air Command relieved from reporting responsibility with seven officers enrolled beginning of period.
m/ B-47 Nuclear Weapons Training Course transferred from Nuclear Weapons Delivery Training group.
n/ Three students should have been entered in F-86 D/L Instructor Course, one student omitted from F-86 D/L Instructor Course.
o/ Training was discontinued during the first quarter of FY 1958.
p/ One Aviation Cadet transferred to Preflight Navigator Training; one entered in error in Preflight Navigator Training.
q/ Eighteen Airmen were changed to Weapons Control Systems Mechanic Course and transferred to Lowry AFB during April 1958.
r/ One Airman omitted on previous report.

Military Personnel Sample Surveys

PART XVIII

MILITARY PERSONNEL SAMPLE SURVEYS

INTRODUCTION

Data in this part are derived from the U. S. Air Force Personnel Report - Characteristics and Attitudes from Sample Surveys (SS-PS-1d, Statistical Compendium), which is prepared periodically and released as part of the SS-PS-1 series of personnel statistics reports.

This report is designed to meet those needs for statistical information that can be provided most economically and most readily by means of a probability sample. Data in this part are from sample surveys conducted during fiscal year 1958.

The sample surveys are designed to include 10.0 per cent of the officers and 5.0 per cent of the airmen strength. The actual survey response for officers and airmen are provided on pages preceding each section.

Validity of question items is determined by pre-testing in the the field. Response error is evaluated and controlled by means of quality check procedure.

Measures of sampling variability are presented on page 402. Definitions of terms used can be found in the table of definitions on pages 237 thru 241.

SAMPLING VARIABILITY

The reliability of an estimated percentage depends upon both the size of the percentage and the size of the total on which it is based. The following tables provide the approximate sampling variability of estimated percentages, based on population totals of selected sizes.

If the estimated percentage is 2 or 98, 5 or 95, etc., (as indicated on the left index of the table), and the total (base figure) is 300, 500, etc., (as indicated on the top index of the table), then the chances are approximately 19 out of 20 that the difference (in percentage points), due to the sampling variability, between the estimated percentage and the percentage which would be available if all individuals had been interviewed, is less than:

OFFICERS (8.6% Sample)

ESTIMATED PERCENTAGE / BASE FIGURE	300	500	2,000	5,000	7,500	10,000	20,000	40,000	50,000	100,000	127,404
2 or 98	5.4	4.2	2.1	1.7	1.1	0.9	0.7	0.5	0.4	0.3	0.3
5 or 95	8.5	6.6	3.3	2.7	1.7	1.5	1.0	0.7	0.6	0.5	0.4
10 or 90	11.7	9.1	4.5	3.7	2.3	2.0	1.4	1.3	0.9	0.6	0.6
25 or 75	16.9	13.1	6.5	5.3	3.4	2.9	2.1	1.8	1.3	0.9	0.8
50	19.5	15.1	6.9	6.2	3.9	3.4	2.4	2.1	1.5	1.1	0.9

AIRMEN (4.0% Sample)

ESTIMATED PERCENTAGE / BASE FIGURE	1,000	2,500	5,000	7,500	10,000	25,000	50,000	100,000	250,000	400,000	736,442
2 or 98	4.3	2.7	1.9	1.5	1.4	0.9	0.6	0.4	0.3	0.2	0.2
5 or 95	6.8	4.3	3.0	2.5	2.1	1.4	1.0	0.7	0.4	0.3	0.2
10 or 90	9.3	5.9	4.2	3.4	2.9	1.9	1.3	0.9	0.6	0.5	0.3
25 or 75	13.4	8.5	6.0	4.9	4.2	2.7	1.9	1.3	0.8	0.7	0.5
50	15.5	9.8	6.9	5.7	4.9	3.1	2.2	1.5	1.0	0.8	0.6

EXAMPLE

To illustrate 90.5 per cent of the Airmen Basic (20,530) do not receive Quarters Allowance because government quarters are provided. The sampling variability is 1.9 per cent and the chances are about 19 out of 20 that the percentage obtained by a 100 per cent survey would be between 88.6 and 92.4 per cent.

MILITARY PERSONNEL SAMPLE SURVEYS

OFFICERS – 31 OCT 1957

DATA ON OFFICERS ARE BASED ON A 8.9 PER CENT SAMPLE TAKEN FROM THE USAF OFFICER STRENGTH (EXCLUDING GENERAL OFFICERS) OF 138,002 AS OF 31 OCT 1957.

SAMPLE SURVEY COMMENTARY

OFFICERS – 31 OCT 1957

USAF REGULAR OFFICERS BY GRADE IN WHICH SERVING AND AIR FORCE CAREER PLANS. - So few Air Force Regular Commissioned officers indicate that they do not plan an Air Force career that the Sample Survey for the negative columns has too few observations to warrant distribution by selected characteristics and attitudes.

Educational Level: Regular Second Lieutenants have the highest level of education since most of them are graduates of the service academies. While 88 per cent have baccalaureate degrees, none hold graduate degrees. Regular Colonels rank next with 44 per cent having baccalaureate degrees and 28 per cent more holding graduate degrees.

Source of Commission: Aviation Cadet training is the source of commission for most of the officers above grade of Lieutenant. In the Lieutenant grades, 36 per cent of the officers are graduates of the Academies. Nearly one-third of the Academy graduates are undecided about making the Air Force a career. Of the Regular Lieutenants who are undecided about an Air Force career, 66 per cent are Academy graduates.

Rating and Flying Status: Regular officers not on flying status are most likely to be undecided about an Air Force career.

Persons Most Influential In Making Up Mind About Staying In Or Leaving The Air Force: The wife (or girl friend) has the most influence on a Regular officer's decision to stay in the Air Force, while his friends in the military service and associates on the job vie for second place as most influential. For those who are undecided about an Air Force career, the same influences are evident but to a lesser degree and the officer indicates he is working out his own problems rather than being influenced by others. Family feeling about an Air Force career is generally favorable where the officer plans to stay in, but family dislike for an Air Force career is very evident when the officer is undecided about remaining on active duty.

Active Duty Preferences As Of Today: About half of the Regular officers who are undecided in their Air Force career plans would prefer to remain on active duty if they have to make a choice as of 31 October 1957. The other half are undecided.

Total Federal Military Service: Over half of the Regular Colonels entered on active duty between 1941 and 1945, as did 75 per cent of the Lt Colonels, and nearly 80 per cent of the Majors. Most of the Regular Captains entered military service during the Korean Air War. Nearly all the Regular First Lieutenants have less than seven years service and the Second Lieutenants less than three years.

Duty Occupational Area: Only in the occupational area of "Research and Development" is the percentage of officers who are undecided about staying in the Air Force in excess of their areas percentage of assigned strength. This occurs in all grades. Nearly eight per cent of all officers are in Research and Development occupational area, while 15 per cent of the officers who are undecided about an Air Force career are in the Research and Development Occupational area.

USAF CAREER RESERVE OFFICERS BY GRADE IN WHICH SERVING AND AIR FORCE CAREER PLANS. - More than 95 per cent of the Career Reserve officers in grade of Captain and above intend an Air Force Career. So few of these officers indicate that they are undecided or do not plan an Air Force career that no distribution by characteristics and attitudes are possible in most cases. But in the grade of First Lieutenant, 25 per cent are undecided or plan to separate as are 36 per cent of the Second Lieutenants.

Educational Level: Educational level is highest for Colonels. In the Lieutenant grades, 44 per cent have bachelor degrees or better. Officers having college degree drop to 25 per cent for Captains, then increase

SAMPLE SURVEY COMMENTARY (CONTINUED)

OFFICERS — 31 OCT 1957

by grade to 52 per cent for Colonels. About 38 per cent of the Career Reserve Lieutenants having college degrees are undecided about an Air Force career or plan to separate.

Source of Commission: The Reserve Officer Training Corps is the source of commission for:

40 per cent of the Second Lieutenants
33 per cent of the First Lieutenants
5 per cent of the Captains
3 per cent of the Majors
14 per cent of the Lieutenant Colonels, and
19 per cent of the Colonels

Aviation Cadet training and Officer Candidate School and Direct Appointments share the balance of the source of commission about equally in grade of Major and above, but in Captain grade and lower, Aviation Cadet training commissions predominate. Of the ROTC commissioned Career Reserve officers, 52 per cent of the Second Lieutenants, 61 per cent of the First Lieutenants, and 89 per cent of the Captains plan an Air Force career. Of the officers who received commissions other than through the ROTC, 62 per cent of the Second Lieutenants, 79 per cent of the First Lieutenants, and 95 per cent of the Captains plan an Air Force career.

Rating and Flying Status: Only 22 per cent of the Career Reserve Lieutenants are not rated and/or on flying status. There is no indication that being on or off flying status affects their Air Force career intent. In grade of Career Reserve Captain, a greater percentage of those planning to separate are not on flying status, but only one per cent have negative Air Force career plans and four per cent are undecided.

Persons Influential In Making Up Mind About Staying In Or Leaving The Air Force: As with Regular officers the persons most influential with Career Reserve Officers are, in order, his wife, his friends in the military service, and his associates on the job. When an officer is undecided about an Air Force career or planning to separate, his wife is most influential, but he is more likely not to be influenced by an individual. The influence of the family's feeling about making the Air Force a career is indicated percentagewise below:

GRADE	FAMILY LIKES AF CAREER PLAN		OFFICERS PLANNING AN AF CAREER	
	Regular	Career Reserve	Regular	Career Reserve
Colonel	78	81	92	95
Lieutenant Colonel	77	83	95	96
Major	73	78	94	97
Captain	73	78	86	95
First Lieutenant	70	69	81	75

In Second Lieutenant grade only half the officers are married and "family" becomes "parents" who are usually "Neutral".

Active Duty Preferences As Of Today: Most Career Reserve officers in grade of Captain and lower who do not plan an Air Force career would prefer separating immediately. Most of those who are undecided about an Air Force career are undecided about immediate separation as well.

SAMPLE SURVEY COMMENTARY (CONTINUED)

OFFICERS — 31 OCT 1957

Total Federal Military Service: Fifty-five per cent of the Career Reserve Colonels, 75 per cent of the Lieutenant Colonels, 92 per cent of the Majors, and 59 per cent of the Captains entered on active duty between 1941 and 1945. About 70 per cent of the First Lieutenants entered military service during the Korean conflict and 99 per cent of the Second Lieutenants have less than three years total Federal military service.

Duty Occupational Area: The majority of the Career Reserve officers in company grade are in Combat and Operations duty occupational area. Field grade officers are largely in Commander and Director and Combat and Operations Occupational areas (35%) and the remaining 65 per cent spread through all other areas.

USAF NONCAREER RESERVE OFFICERS BY GRADE IN WHICH SERVING AND AIR FORCE CAREER PLANS. - There are only 140 Noncareer Reserve officers in grade of Major or higher. In a ten per cent sample survey, this small number does not provide enough observations for reliable estimates. In grade of Captain, 98 per cent of such officers are in the medical, nursing, dental and veterinary occupational areas and are analyzed separately below.

Noncareer Reserve Captains: Only 10 per cent of the Noncareer Reserve Captains plan an Air Force career, half of whom are medical, dental, and veterinary officers and the rest medical specialists, nurses, and non-medical officers.

The Education Level of Noncareer Reserve Captains is naturally very high. Only one per cent did not attend college, seven per cent attended college and half graduated, 92 per cent earned medical, dental, or veterinary degrees.

The Source of commission for 97 per cent of the Noncareer Reserve Captains was through direct appointment. Nearly all the rest received AFROTC commissions.

Eighty-three per cent of the Noncareer Reserve Captains hold no aeronautical rating and are not on flying status, seven per cent are Flight Surgeons on flying status, seven per cent are on flying status (possibly, having aeronautical designations) and three per cent are pilots, observers, or navigators.

The persons most influential in making up the Captain's mind about staying in or leaving the Air Force is his spouse. Of the Noncareer Reserve Captains intending an Air Force career, only one-third are not influenced by some person. But of those who do not plan to stay in, 78 per cent are not influenced by anyone. The immediate family's reaction is in accord to career intent - families of Captains staying in like the idea of an Air Force career, families of those who are undecided are neutral, and the 60 per cent of the families disliking the idea of an Air Force career help produce the 73 per cent negative career intent.

When asked "As Of Today, What Are Your Active Duty Preferences?" only 17 per cent of those who were "undecided" (600), wanted to separate immediately, but 74 per cent of those (2,500) who did not plan an Air Force career would prefer to separate, 17 per cent would prefer to stay on active duty, and nine per cent were undecided.

Seventy-five per cent of the Noncareer Reserve Captains have less than three years total Federal military service; 14 per cent, three through seven years; and 11 per cent, eight years or more. A student in his senior year in medical school may receive a direct appointment as a Second Lieutenant and agree to serve up to 84 months, and a doctor serving internship may be appointed a First Lieutenant agreeing to serve 72 months. These officers are not accountable to the Air Force strength until they enter on active duty. Doctors, who have completed internship, may also receive direct appointments to grades based on length of medical practice and other factors.

SAMPLE SURVEY COMMENTARY (CONTINUED)

OFFICERS — 31 OCT 1957

Noncareer Reserve First and Second Lieutenants: The Air Force career intent of Noncareer Reserve Lieutenants is:

GRADE	AIR FORCE CAREER INTENT (Percentaged Distribution)			
	Total	Yes	Undecided	No
Second Lieutenant	100.0	13.7	28.8	57.5
First Lieutenant	100.0	16.2	19.4	64.4

The only significant difference in career intent is that more Second Lieutenants are undecided about an Air Force career, while more First Lieutenants have arrived at decisions.

The Educational Level of Noncareer Second Lieutenants is high (85% are college graduates) since 77 per cent received commissions after completing AFROTC training. Seven per cent are from Aviation Cadet training, and 16 per cent from other sources. No Second Lieutenants are medical officers. Over 20 per cent of the First Lieutenants received commissions after Aviation Cadet training and 31 per cent plan an Air Force career. The Air Force career intent of officers with college degrees is affirmative for only eight per cent of the Second Lieutenants and 11 per cent of the First Lieutenants.

Thirty-eight per cent of the Second Lieutenants and 57 per cent of the First Lieutenants are on flying status and only 18 per cent in each grade plan an Air Force career. In numbers this reads, that out of 9,500 Noncareer Second Lieutenants, 3,600 are on flying status and only 600 definitely plan an Air Force career, and there are nearly 15,000 Noncareer First Lieutenants of whom 8,500 are on flying status and only 1,500 say they plan to stay on active duty.

As of today, only one-fourth of the Lieutenants who are undecided about an Air Force career prefer to remain on active duty. This decision may indicate only a desire to complete training.

By duty occupational area, only five per cent of the First Lieutenants are medical or dental officers, three per cent of whom plan an Air Force career.

TABLE 208 — USAF MALE REGULAR COMMISSIONED OFFICERS ON FLYING STATUS BY AERONAUTICAL RATING, BY SELECTED CHARACTERISTICS AND ATTITUDES, WORLDWIDE — 31 OCT 1957

SELECTED CHARACTERISTICS AND ATTITUDES	TOTAL REGULAR OFFICERS ON FLYING STATUS	RATED OFFICERS ON FLYING STATUS				NONRATED ON FLYING STATUS

MILITARY PERSONNEL SAMPLE SURVEYS

AIRMEN — 31 OCTOBER 1957

DATA ON AIRMEN ARE BASED ON A 4.5 PER CENT SAMPLE OF AIRMAN STRENGTH OF 762,945 AS OF 31 OCT 1957.

SAMPLE SURVEY COMMENTARY

AIRMEN — 31 OCT 1957

CAREER AIRMEN BY GRADE IN WHICH SERVING AND REENLISTMENT INTENT. - This analysis of Career Airmen probes deeper into their characteristics and attitudes by stratifying them by grade and reenlistment intent. This group of 378,000 airmen are serving their second or later Air Force enlistment or their first Air Force enlistment with prior service in another branch of the military service. Aviation cadets are excluded.

Certainty of Reenlistment Intent: Career Airmen have a highly favorable reenlistment intent with 73 per cent intending to reenlist; 15 per cent, undecided about reenlisting; and 12 per cent, not planning to reenlist. The negative reenlistment intent runs from two per cent for Master Sergeants to 41 per cent for Basic Airmen (16 per cent of whom might change their minds). Of the 12 per cent of the Career Airmen not intending to reenlist, nearly one-third indicate that they might change their minds. Only 11 per cent of those who intend to reenlist say they might change their minds.

Marital Status: Married men are more likely to intend an Air Force career than never married men. This applies to all grades. The family's feeling about reenlisting has great influence on the airman's decision. In all grades above Airman Second Class, when the airman intends to reenlist, over 60 per cent of the families are in favor of his reenlisting and less than five per cent are against it. Airmen who are undecided about reenlisting usually have families who are neither for nor against his doing so or have not discussed reenlisting prospect with him. Only one-third of the families of airmen who do not intend to reenlist are against his reenlisting, 10 per cent are in favor of his reenlisting, and the rest have no opinion or have not discussed the matter with the airman. Favorable or neutral family attitude is a possible reason why nearly one-third of the airmen who say they do not plan to reenlist also say they may change their minds.

Skill Level And Technical Category: The potential loss of Career Airmen in skill levels 5 and 7, who are in highly technical or technical career fields, is great. About 14,700 Staff Sergeants, 14,400 Airmen First Class, and 8,000 Airmen Second Class do not intend to reenlist. Most of these airmen are leaving on completion of their second tour of service. Of the Staff Sergeants planning to separate 87 per cent are in skill levels 5 (63%) and 7 (24%) and 46 per cent are in highly technical career fields and 22 per cent in technical fields. Likewise, 87 per cent of the Airmen First Class are in skill level 5 (1% in 7) and 30 per cent are in highly technical career fields and 26 per cent in technical fields. Sixty-seven per cent of the Airmen Second Class are in skill level 5 and 46 per cent are in highly technical and 14 per cent in Technical career fields. In these grades alone the potential loss is 37,100 career airmen of whom 80,900 (83%) are in Skill Level "Skilled" (5) or "Advanced" (7) and in Technical or Highly Technical career fields. Over 3,400 Technical Sergeants, 82 per cent of whom are in the highest skill level also state they do not intend to reenlist.

FIRST TERM AIRMEN BY GRADE IN WHICH SERVING AND REENLISTMENT INTENT. - The source data pattern is the same as for Career Airmen above. First Term airmen with no prior military service comprise 50 per cent of the USAF airmen strength. Aviation Cadets are not included in this analysis.

Certainty Of Reenlistment Intent: First Term airmen take a dim view of reenlisting. Only 15 per cent indicate they will reenlist, 33 per cent are undecided and 52 per cent say they will not reenlist. Only 18 per cent of those not intending to reenlist think they might change their minds. Of those intending to reenlist, 24 per cent might change their minds. Only 11 per cent of the Airmen First Class, over 70 per cent of whom will complete their tours in the near future, intend to reenlist. About 25 per cent of the Airmen Second Class have served over three

SAMPLE SURVEY COMMENTARY (CONTINUED)

AIRMEN – 31 OCT 1957

years of their enlistment and are becoming eligible for separation. Only 13 per cent plan to reenlist. The low reenlistment intent of Airmen First and Second Class is due in part to the substantial number of First Term airmen who reenlisted prior to expiration of their normal tour, thereby becoming classified as Career Airmen. There are about 1,200 Master and Technical Sergeants (most of whom were formerly officers) serving their first Air Force enlistment. Approximately 1,000 of these airmen plan to stay in the Air Force.

Marital Status: Only one-fourth of the First Term airmen are married. They are shown to be inclined toward an Air Force career in that within each intent a greater percentage of married men will reenlist than will not, for example: of the Airmen Second Class who intend to reenlist, 34 per cent are married and of those who do not intend to reenlist, only 21 per cent are married. But while 20,600 intend to reenlist, 84,200 do not. Family's feeling about reenlisting have much more effect when the family is the airman's own and not his parents. About half the First Term airmen say no other person influenced their decision on reenlistment.

Skill Level and Technical Category: Of the First Term Airmen Third Class who do not intend to reenlist (53,400), 14 per cent are "Skilled" as compared to nine per cent of those intending to reenlist (19,100). In grade of Airman Second Class, both the skill level and technical category are higher for those not intending to reenlist than for those who plan an Air Force career. Skill level and technical category is about the same for Airmen First Class and Staff Sergeants regardless of reenlistment intent, but the potential loss to Air Force strength, as shown below, is tremendous:

GRADE	REENLISTMENT INTENT		
	Yes	Undecided	No
Staff Sergeant	2,800	3,000	6,300
Airman First Class	8,700	17,500	43,200
Airman Second Class	20,600	50,700	84,200

Nearly all the Staff Sergeants have completed over three years of their present enlistment, as have 70 per cent of the Airmen First Class, and 25 per cent of the Airmen Second Class. Assuming these airmen are on four-year tours, and considering only those who do not intend to reenlist, the separation of about 60,000 skilled airmen is indicated during CY 1958.

AIRMEN BY BRANCH OF US SERVICE IN WHICH PREVIOUSLY SERVED AND CATEGORY OF ENLISTMENT. - Approximately 123,000 (16%) of the Air Force enlisted strength is composed of airmen who have had previous service in the Army, Navy, Marines, or Coast Gurad. Those with previous service in the Army comprise 69 per cent of these airmen. Airmen with prior military service have attitudes similar to Career Airmen (airmen on second or later Air Force enlistment) who have served only in the Air Force. First Term airmen with prior service, often lost a stripe in transferring to the Air Force, but more than half of them enlisted with the idea of making an Air Force career, about 30 per cent were undecided about an Air Force career and waited to see how well they liked it, and 20 per cent enlisted with the intent of serving no more than one or two tours.

Present Plans: Nearly three-fourths of all airmen with prior service before entering the Air Force presently plan an Air Force career. Favorable Air Force career intent goes as high as 83 per cent for prior service airmen who are on their second or later Air Force tour, while 68 per cent of the Career Airmen with only Air Force service indicate they plan to stay in until retirement.

SAMPLE SURVEY COMMENTARY (Continued)

AIRMEN – 31 OCT 1957

Level of Education: There is little difference in the educational level of airmen by category of enlistment. Airmen with only Air Force service have the greatest percentage of high school graduates (58%), with Navy veterans second (55%), and those with Army background third (50%). About 15 per cent of the airmen have attended college. Only one per cent have a bachelor degree or equivalent.

Present Grade: Career Airmen with previous Army service have the greatest percentage in the top three grades (83%), while 81 per cent of the Navy veterans and 68 per cent of Air Force service only Career Airmen who are in these grades.

Chief Concern (Or "Worry") When Enlisting In The Air Force: The chief concern that airmen had when first entering the Air Force was in not knowing whether they could qualify for, or receive, training for the job they wanted. A major concern among First Termers with no prior service was the length of their obligated service. Only 23 per cent of the First Termers say they had no worry of any kind, while 39 per cent of the Career Airmen, perhaps with memory dulled by time, state they had no worries when they first entered the Air Force.

Aspiration: The most important aspirations in the life First Termers want to lead is "More training or education" and "Opportunity to get ahead". With Career Airmen, a "Steady income" is most important, followed by "Stable family life" and "Good retirement pay".

Where Aspirations Can Be Best Realized: Nearly half of the First Termers with no prior military service feel their aspirations can best be realized in civilian life, 30 per cent say in the Air Force, and the rest say "Both about Equally". Approximately 63 per cent of the Career Airmen chose the Air Force as the place they can realize their aspirations, 18 per cent say either in Air Force or civilian life, and 19 per cent pick civilian life.

Benefit Of Improvement That Would Increase The Value Of An Air Force Career: Regardless of category of enlistment, airmen feel increased pay and allowances would do most to increase the value of an Air Force career. First Termers also want more opportunity to select base of assignment. Besides more pay, Career airmen want the promotion system changed.

Opinion Of Air Force Pay and Allowances: A high percentage (78%) of the First Termers with no prior military service hold the opinion that Air Force pay and allowances they are receiving is less than they could get as a civilian and only two per cent feel that Air Force pay is more than they can earn as a civilian. This opinion can be explained partly by the fact that 78 per cent of the First Term, no prior service, airmen are in grade of Airman Second Class or below. However, only seven per cent of the Career Airmen feel Air Force pay is more than they can earn as a civilian, 47 per cent think their Air Force pay is about equal to civilian pay they can earn, and 46 per cent believe thay can make more in civilian life.

Adequacy of Explanation of Work Assignments By Supervisors: Nearly half (46%) of the First Termers think supervisors are doing a very good job in explaining work assignments and so do 43 per cent of the Career Airmen with only Air Force service; however, about 20 per cent of all airmen think most of the supervisors don't do as good a job as they should. In comparison, it is interesting to note that 38 per cent of the Career Airmen with previous service in the Army think that supervisors are not doing as good a job as they should, 52 per cent say they are doing a fairly good job and ten per cent of the Army veterans indicate supervisors are doing a very good job.

MILITARY PERSONNEL SAMPLE SURVEYS

OFFICERS – 31 MAY 1958

DATA ON OFFICERS ARE BASED ON A 8.6 PER CENT SAMPLE TAKEN FROM THE USAF OFFICER STRENGTH (EXCLUDING GENERAL OFFICERS AND WARRANT OFFICERS) OF 127,404 AS OF 31 MAY 1958

SAMPLE SURVEY COMMENTARY —

OFFICERS — 31 MAY 1958

NOTE: The percentaged distributions by grade for officers and airmen in the body of this report may total slightly more or less than 100.0 per cent. This is due to automatic rounding of percentages on the EDPM (IBM 705) procedure used to process the grade portion of the 31 May 1958 Sample Survey.

USAF MALE COMMISSIONED OFFICERS BY CAREER CATEGORY AND AIR FORCE CAREER PLANS

Career Category

The strength of USAF male commissioned officers (excluding General Officers) was 123,900 on 31 May 1958. Of this number, 40,900 (33%) were Regular officers, 62,400 (50%) were Career Reserve officers, and 20,600 (17%) were Noncareer Reserve officers. During the year, 1 June 1957 - 31 May 1958, the officer strength dropped by 8,500. Strength changes by career category during this period were as follows:

Regular officer strength increased by 16,700
Career Reserve officer strength decreased by 12,400
Noncareer Reserve officer strength decreased by 12,800

Air Force Career Plans

The career plans of Regular officers on 31 May 1958 as compared to 31 May 1957 show no significant change, but the percentage of Career Reserve officers intending an Air Force career fell from 87 per cent in May 1957 to 78 per cent in May 1958. This drop resulted from the integration of career-minded Reserve officers into the Regular Air Force. The following percentaged table gives Air Force career intent on two dates:

REGULAR OFFICERS	31 MAY 1958	31 MAY 1957
Yes, Plan an Air Force Career	87.5	87.8
Undecided	10.2	9.5
No	2.3	2.7
CAREER RESERVE OFFICER		
Yes, Plan an Air Force Career	78.2	86.7
Undecided	16.5	10.2
No	5.3	3.1
NON-CAREER RESERVE OFFICER		
Yes, Plan an Air Force Career	15.2	12.4
Undecided	25.2	31.4
No	59.6	56.2

Age

Commissioned officers not intending an Air Force career or "undecided" are the younger men. Of the Noncareer Reserve officers who do not plan to stay in, 53 per cent are 24 years old or younger, as are 58 per cent who are "undecided", while only 25 per cent who plan an Air Force career are under 25 years of age. For Career Reserve officers, only 10 per cent of those remaining in are 24 years of age or younger and 40 per cent of those separating are in this age group. About 60 per cent of the Regular officers and 56 per cent of the Career Reserve officers who plan an Air Force career are 35 years of age or older.

Educational Level

Officers leaving the Air Force are most often the college graduates. Over 97 per cent of the Noncareer Reserve officers separating have at least a baccalaureate degree as compared to 43 per cent for officers who plan to remain on active duty. Those officers undecided about an Air Force career have an educational level similar to those planning to leave the Air Force. About 28 per cent of the Career Reserve and 53 per cent of the Regular officers are college graduates.

SAMPLE SURVEY COMMENTARY (Continued)

OFFICERS — 31 MAY 1958

Academic Major

Officers who have Medical or Dental degrees are most desirous of leaving the Air Force regardless of career category. Those who majored in Engineering were second in their reluctance for an Air Force career. Officers who majored in Business Administration are the largest group by academic major that plan an Air Force career.

Aeronautical Rating

Officers holding an aeronautical rating are more interested in an Air Force career than the nonrated officers. Of the Noncareer officers who plan to stay in, 60 per cent have aero ratings as compared to 38 per cent for those intending to separate from the Air Force. Among Career Reservists the percentage of rated among those staying or leaving is not significantly different. About 70 per cent of the Regular officers not planning an AF career are rated as compared to 80 per cent of those intending to remain.

Source of Commission

Officers who were commissioned from the AFROTC comprise two-thirds of the Noncareer Reserve officers who do not intend an AF career or who are "undecided" and the second largest group leaving are those who received direct appointments (medical and dental officers). The career interest of the above groups are distributed nearly identically to "college graduate" and "Medical and Dental" under Educational Level. The most Air Force career minded officers are those who received commissions on completion of Aviation Cadet training. They comprise 57 per cent of the officers planning to stay in the Air Force.

Influence of the Draft on Decision to Join the Air Force

Over 50 per cent of the Noncareer Reserve officers would not have joined the Air Force if there had been no draft and three-fourths have no intention of staying in beyond their obligated tour. The officers that joined voluntarily, comprise 78 per cent of those Noncareer Reserve Officers and about 85 per cent of the Regular and Career Reserve officers planning an Air Force career.

Air Force Plans and Years of Active Duty Planned

Two-thirds of the Regular officers planning to stay in the Air Force intend to serve for 30 years or more. Only 12 per cent plan to retire after 20 years service. About 32 per cent of the Career Reserve officers plan 20 years of service and 41 per cent 30 years. About a third of the Regular officers and a quarter of the Career Reserve officers who indicate they are undecided about an Air Force career in another question (12) showed their inclination toward remaining on active duty by selecting the number of years of service they plan to attain.

Date of Separation (DOS)

Officers with a definite date of separtion (Noncareer Reserve officers) who do not intend an Air Force career will complete their obligated tours during the following fiscal years:

FISCAL YEAR	PER CENT COMPLETING OBLIGATED TOUR
1959	44.6
1960	35.6
1961	16.4
After 1961	3.4

Career Plans When First Entered The Air Force

Officers who entered the Air Force with the intent of making it a career constitute the greatest percentage of those who plan to stay in (36%). Those who were "Undecided and Wanted To See How Well They Liked The Air Force" make up the largest group of those who are still "Undecided". Noncareer Reserve officers who intended only to serve a minimum tour when they entered the Air Force, comprise nearly half of the officers not planning an Air Force career.

Date of Retirement

Less than three per cent of the Regular officers and four per cent of the Career Reserve officers are planning to retire before 31 December 1960.

SAMPLE SURVEY COMMENTARY (Continued)

OFFICERS – 31 MAY 1958

Effect of the Pay Increase on Air Force Career Plans

The military pay raise had no effect on the career plans of 94 per cent of the officers. Of the six per cent who indicated that the pay raise caused a change, 9 out of 10 were favorably changed toward an AF career. The largest swing was from "No" to "Undecided". The following percentaged distribution indicates the effect on career intent resulting from the pay increase:

CHANGES	AF CAREER PLANS		
	Yes	Undecided	No
Did not change Plans	95.9	83.8	98.3
Plans changed from:			
Separating to Remaining	1.3	-	-
Separating to Undecided	-	13.7	-
Undecided to Remaining	2.8	-	-
Undecided to Separating	-	-	1.5
Remaining to Separating	-	-	0.2
Remaining to Undecided	-	2.5	-

Due to the proximity of the pay raise and the date of this survey (31 May 1958), this question will be repeated in the October 1958 sample survey.

Immediate Family's Feeling About Making a Career in the Air Force

Regardless of career category, the family's feelings about making a career in the Air Force exerts the same influence. Officers who plan an Air Force career usually have families that like the idea; when the family is neither for or against an Air Force career, the officer is "undecided"; and, if the family dislikes a military career, the officer is most likely not to plan an Air Force career.

USAF MALE COMMISSIONED OFFICERS BY GRADE IN WHICH SERVING

Air Force Plans and Years of Active Service Planned

About 12 per cent of the USAF male commissioned officers do not intend an Air Force career. Practically all of these officers are in company grade. Nearly 15 per cent of the officers are "Undecided" about staying on active duty until retirement. Those "Undecided" ranged from 38 per cent of the Second Lieutenants to nine per cent of the Colonels. Of the officers planning to remain on active duty until retirement, 25 per cent plan to retire after 20 years of service, 51 per cent after 30 or more years of service, and 24 per cent chose years of service between 20 and 30. Those indicating intention of retiring after 20 years of service are largely younger men in grades of First Lieutenant through Major. Only nine per cent of the Colonels plan to retire after 20 years of service and 70 per cent intend to serve at least 30 years.

Date of Retirement (Prior To 1961)

Between 1 June 1958 and 31 December 1960, only four per cent of commissioned officers, who have made a career of the Air Force, plan to retire. Those who plan to retire are distributed quite evenly percentagewise in grades of Captain through Colonel. Retirements will amount to approximately one per cent of the career officer strength during 1958 and 1959 and rise to two per cent in 1960. The first to leave will be among those who plan retirement after 20 years of service. Most of these officers entered on active duty during World War II and will retire after 1960.

Adequacy of Quarters

Three-fourths of the commissioned officers report their quarters have been adequate most of the time. About 30 per cent usually lived in government-owned housing and two-thirds felt those quarters were adequate, 20 per cent owned their own houses and nearly all of these were satisfactory; the remaining 50 per cent rented private homes, three-fourths of them considered adequate.

Family Quarters Furnishings Required at Next Duty Station on Continental US

Officers in grade of Lieutenant are much more likely to desire fully furnished family quarters at their next duty station in Continental US, while over 80 per cent of the officers in grade of Captain or above would require

unfurnished family quarters. Fifty-four per cent of the officers would not require any furnishings at their next continental US station, 16 per cent would require only the kitchen to be furnished, 13 per cent would want quarters fully furnished, and 17 per cent would want other combinations of rooms furnished.

Government Sponsored Schooling Received in the Last Three Years

No government sponsored schooling has been received by 64 per cent of the male commissioned officers in the last three years, while 28 per cent have received less than one year of schooling and eight per cent have received one year or more. Officers in grades of First Lieutenant and Captain had received the most schooling and Colonels the least during the last three years.

Blue Summer Uniform Preference

A majority (55%) of the male commissioned officers would prefer to keep the summer and winter uniforms a different color as they are now. About 17 per cent would like to add a light weight blue for optional wear for summer or winter and 16 per cent would prefer the same shade of blue the year around with a lighter weight material for summer. Twelve per cent had no preference. Officers in the higher grades showed more preference for a blue uniform the year around than those in the lower grades.

Problems Existing Between Present Air Force Base and Nearby Community

While 29 per cent of the officers say there is no problem of importance existing between AF Base and a nearby community, 24 per cent believe high prices charged by merchants and landlord cause friction between the Air Force and the community. Officers also feel that lack of on-base housing (10%), aircraft noise and aircraft accidents (8%) and irresponsible off-duty airmen (7%) cause friction between Air Force and community. Only three per cent of the officers were located on a base where there was no community.

Active Federal Military Service

The median number of years of active Federal military service of male commissioned officers by grade provides an index of experience attained. In the following table, the years and months of service represent the midpoint of military service - 50 per cent have had less and 50 per cent have had more:

GRADE IN WHICH SERVING	MEDIAN AFMS	
	Years	Months
Colonel	17	10
Lieutenant Colonel	16	6
Major	15	7
Captain	11	-
First Lieutenant	3	11
Second Lieutenant	1	1

Department of Defense Pamphlets Most and Least Valuable

The recent Department of Defense pamphlet considered most valuable by officers is "How Our Foreign Policy Is Made". The least valuable of the pamphlets in the officers' estimation was "Armed Forces Day 1958". Regardless of grade, about half of the officers reported they had "not read any" or had read "only one" of the pamphlets mentioned.

Information on Personnel Matters Desired from Hq USAF

Information desired from Hq, USAF in connection with personal affairs depended upon the grade in which the officer is serving. Officers in field grade are particularly interested in retirement information and medicare. Younger officers want information on promotion and augmentation. All officers show interest in knowing more about dependent housing by area and available overseas tours.

In connection with their official duties, officers expressed most desire for information on training, available overseas tours, promotion, and retraining and cross training, especially. Information desired is not influenced greatly by grade in which serving.

TABLE 217 — USAF MALE OFFICERS BY GRADE IN WHICH SERVING, BY SELECTED CHARACTERISTICS AND ATTITUDES, WORLDWIDE — 31 MAY 1958

SAMPLE SURVEY COMMENTARY

AIRMEN — 31 MAY 1958

The USAF airman strength on 31 May 1958 was composed of 333,610 (45%) First Term Airmen (no prior military service) and 402,832 (55%) Career Airmen (serving second or later AF enlistment or first AF enlistment with prior service in the Army, Navy, etc.). The percentaged reenlistment intent by category of enlistment of these airmen follows:

REENLISTMENT INTENT	FIRST TERMERS	CAREER AIRMEN
Yes, Will Reenlist	18.5	78.4
Undecided	37.2	13.2
No	44.3	8.4

The intent of airmen to reenlist is at an all-time high in both categories of enlistment.

Educational Level

The educational level of Career Airmen has continued to rise until nearly three-fourths are high school graduates. Career Airmen who plan to separate are no longer principally those with the greatest amount of education.

First Term Airmen who plan to reenlist continue to have had less education than those who plan to separate. Of the First Termers who plan to reenlist, 37 per cent did not graduate from high school as compared to 24 per cent for those who plan to separate.

Marital Status

Over 73 per cent of the airmen who intend to reenlist are married and 72 per cent of those not intending to reenlist are not married.

Age

First Term airmen who plan to reenlist are younger than those who do not. Over 40 per cent of the First Termers reenlisting are 19 years old or less as compared to 27 per cent for those not reenlisting. Nearly 60 per cent of those not reenlisting are in the 20 - 22 years of age group and plan on returning to school or college or get a civilian job. In their reasons for separating they indicate general dissatisfaction with military life. Less than 22 per cent of the Career Airmen who plan to reenlist are under the age of 25, while over 50 per cent who are not reenlisting are under 25 years of age. Career airmen who are undecided about reenlisting have 46 per cent under 25.

Technical Category

The distribution of AFSC's by technical category include the amendments made 10 July 1958 to AFM 26-1, dated 8 October 1957.

Of the First Termers who do not intend to reenlist (148,000), 41 per cent are in Highly Technical specialties, 24 per cent in Technical specialties, 24 per cent in semi-technical specialties, and 11 per cent are in reporting codes. They occupy 22 per cent of the highly technical jobs in the Air Force and those First Termers who are undecided about reenlisting occupy 18 per cent more of the highly technical category AFSC's.

Years of Active Duty Planned

Approximately 94 per cent of the Career Airmen who plan to reenlist, will remain on active duty until retirement. Half of these airmen will retire upon completion of 20 years service, 20 per cent after 22 years service, and 15 per cent will stay on active duty for 30 years or more. The 15 per cent remaining will retire with other years of service between 20 and 30 except for the 22 year interval mentioned above.

About 60 per cent of the First Termers who plan to reenlist also plan to stay in until eligible for retirement. Less than half of the airmen, who do not intend to reenlist, would separate immediately if they had a chance.

Aptitude Index Scores

The Technical Specialty Aptitude Index and General Aptitude Index scores serve as one measure showing the general quality of airmen. The following groupings of TSAI and GAI scores are based on a theoretical and actual dis-

tribution of such scores. The following table shows the percentage of airmen in each group by reenlistment intent:

TSAI SCORE	GAI SCORE	ALL AIRMEN Reenlistment Intent Yes	Und	No	FIRST TERMERS Not Reenlisting	CAREER AIRMEN Yes, Will Reenlist
9	70-95	16.8	12.5	14.1	14.3	18.1
6, 7, 8	40-65	44.3	42.6	43.6	43.6	45.8
4, 5	20-35	24.4	28.1	25.6	24.9	23.0
1, 2, 3	1-15	7.3	10.2	9.8	10.4	5.7
No Score Reported		7.2	6.6	6.9	6.8	7.4

Thought Given to a Career in the Air Force

Nearly 90 per cent of the airmen who intend to reenlist have given considerable thought to a career in the Air Force. Only one per cent "Haven't Thought About It At All". Those who are undecided about reenlisting gave much more thought to an Air Force career than those who do not intend to reenlist.

Career Plans when First Entered the Air Force

Upon entering the Air Force the greater percentage of airmen (43%) had a "wait and see" attitude. The career minded First Termer (35%) intented to make the Air Force a career and 40 per cent of First Termers not intending to reenlist entered on active duty intending to serve a minimum tour.

Reason for Original Enlistment in the Air Force

Of various reasons for original enlistment in the Air Force, First Term airmen most often choose "Wanted AF Educational and Technical Training". The AF career minded First Termers, as well as Career Airmen, felt AF career opportunities were better than those in civilian life. The "not career-minded", First Termers joined the Air Force most often in preference to being drafted into another service.

Opinion of the Length of Overseas Tours

Both First Term and Career Airmen who are bachelors believe the current normal overseas tour of 36 months is too long. They think it should not be made longer than it is. Married airmen are of the opinion that the 18 month tour in a 36 month area unaccompanied by dependents should not be increased.

Base-of-Choice/Area-of-Choice

About 60 per cent of the airmen have little faith in the Base-of-Choice/Area-of-Choice program for overseas returnees. At the same time they would prefer the present program be continued. There is practically no enthusiasm displayed for a choice of three areas without base preference. A little over one per cent would discontinue the program entirely.

Reason for Most Recent PCS Movement

About 22 per cent of the First Termers applied for their most recent permanent change of station movement, 48 per cent were not given choice, 19 per cent had other reasons for PCS, and 11 per cent did not have a PCS move. Application or volunteering for a PCS resulted in a movement for 34 per cent of the Career Airmen, 33 per cent were not given choice, 29 per cent had other reasons for PCS, and four per cent have not had a PCS move.

Evaluation of Commander's Call Program

Approximately 98 per cent of the airmen attend Commander's Call. A significant percentage of them (43%) note shortcomings in the program, ranging from "Interesting, But Not Important" to "Waste of Time". Among First Termers, those who plan to reenlist show more interest in the Commander's Call Program than those who plan to separate. First Termers who are undecided about reenlisting, evaluate the program as high as those planning to reenlist. Participation of the Commander is considered important, especially by Career Airman.

SAMPLE SURVEY COMMENTARY (CONTINUED)

AIRMEN — 31 MAY 1958

Information on Personnel Matters Desired from Hq USAF

The following topics on which information is desired are posted in order of interest shown by category of enlistment:

FIRST TERM AIRMEN	CAREER AIRMEN
Promotion	Promotion
Retraining and Cross Training	Retraining and Cross Training
Officer Candidate Program	Retirement
Available Overseas Tours	Available Overseas Tours
Flying Status	Dependent Housing

Best Source of Information on Air Force Activities

About half of the airmen regarded the Air Force Times as their best source of information regarding Air Force activities. The base newspaper is the next best source. First Termers were more dependent on Commander's Call, The Airman magazine, the base newspaper and Stars and Stripes than were Career Airmen, 60% of whom select the Air Force Times as the best source.

Reasons Most Important for First Termers in Making Up Mind to Reenlist or Separate and for Career Airmen to Reenlist the Last Time

The main reasons First Termers intend to reenlist are "Opportunities for More Training and Education in the Air Force" (26%), "Like Job and Duty Assignments (18%), "Like Military Life (14%), and "Adventure, Travel, New Experience" (11%). About half of the First Termers, who are undecided about reenlisting, selected reasons for reenlisting. Their biggest complaint was "Not Enough Promotion Opportunities". Over 20 per cent of the First Termers, not intending to reenlist, plan to go back to school or college; 14 per cent feel "Civilian Life Offers Greater Career or Job Opportunities;" 24 per cent do not like military life in general; 13 per cent feel they have not been given a chance to do the work they like; 10 per cent don't believe there are enough promotion opportunities; and 19 per cent had other reasons for separating.

Working Within Own Air Force Specialty

About 88 per cent of the First Termers and 92 per cent of the Career Airmen are working within their Air Force specialty or a job related to it, seven per cent in each group indicate their work is not related to their Air Force specialty, and the balance did not know. Fifty-one per cent of the First Termers and 63 per cent of the Career Airmen had duties 100 per cent within their specialty during the last 12 months.

Evaluation Based On "Airman Performance Report"

No "Airman Performance Report" evaluations were reported for two-thirds of the First Termers and 22 per cent of the Career Airmen. The evaluation given First Termers followed the same pattern regardless of reenlistment intent with about three per cent "Unsatisfactory" and over four per cent "Outstanding". For Career Airmen, slightly less than one per cent were rated "Unsatisfactory" and nine per cent "Outstanding". Most First Termers were rated "Good" or "Very Good", while most Career Airmen were considered "Very Good" or "Excellent".

Effect of Recent Military Pay Raise on AF Career Plans

The recent military pay raise change the AF career plans of 14 per cent of the airmen. This 14 per cent comprise about 104,000 airmen. The following percentaged table shows manner in which these airmen changed their plans:

From Separating to Remaining	21.8
From Separating to Undecided	34.7
From Undecided to Remaining	17.8
From Undecided to Separating	6.5
From Remaining to Separating	5.9
From Remaining to Undecided	13.3

SAMPLE SURVEY COMMENTARY (Continued)

AIRMEN – 31 MAY 1958

The first three changes listed are considered as favorable to an Air Force career and indicate that the effect of the pay raise was positive for 74 per cent of the "changers". On basis of the entire Air Force strength, the change in plans caused by the pay raise was nearly seven per cent increase in favor of remaining in the Air Force. For First Termers, the positive reaction amount to 7.7 per cent of the First Term airman strength and for Career Airmen, 6.3 per cent of their strength.

USAF MALE AIRMEN BY GRADE IN WHICH SERVING

Educational Level

The educational level of airmen has increased during the last year. The most significant increases in the percentage of airmen with a high school graduate education or higher are in the lower three airman grades. The following percentaged distribution compares the educational level of the first three grades of airmen on 31 May 1957 and 31 May 1958.

	AIRMAN 2/C		AIRMAN 3/C		AIRMAN BASIC	
	May 57	May 58	May 57	May 58	May 57	May 58
Grammar School	6.0	5.4	7.6	6.1	11.1	8.6
High School, Nongraduate	27.7	22.1	36.6	29.3	46.9	38.2
High School, Graduate	55.1	59.8	47.0	53.7	32.4	40.7
College, Nongraduate	10.6	12.2	8.2	10.4	9.3	12.2
College, Graduate	0.6	0.5	0.6	0.5	0.3	0.3

Adequacy of Quarters During Current Tour or Last Four Years

Approximately 82 per cent of the airmen indicate their quarters during their current tour or during the last four years have been adequate most of the time. Of the 18 per cent who felt their quarters were not adequate, half lived in government owned and half in privately owned housing. Ninety per cent of the Airmen Basic and Airmen Third Class, most of whom had lived in government-owned housing, felt their quarters were adequate. About 70 per cent of the top three grades of airmen lived in privately owned housing which was considered adequate by 80 per cent of the Sergeants.

Air Force Plans and Years of Active Duty Planned

The percentage of airmen who intend to reenlist has increased nearly 10 per cent points in the last year. This increase is reflected in each grade but especially significant in grades of Airman First Class and Staff Sergeant. The following percentaged table compares the affirmative reenlistment intent for 31 May 1957 and 31 May 1958:

GRADE IN WHICH SERVING	YES, WILL REENLIST	
	31 May 1957	31 May 1958
Master Sergeant	91.3	92.9
Technical Sergeant	83.9	90.9
Staff Sergeant	65.6	77.7
Airman First Class	34.5	51.2
Airman Second Class	20.7	25.5
Airman Third Class	20.8	23.5
Airman Basic	24.9	28.1
All Airmen	42.2	51.5

Thought Given to a Career in the Air Force

As a whole, 89 per cent of the airmen say they have thought about an Air Force career frequently or given it considerable thought. This interest ranged from 78 per cent for the first two airmen grades to 98 per cent for the top three grades. A small percentage of airmen in the first four grades have given little or no thought to an Air Force career.

SAMPLE SURVEY COMMENTARY (Continued)

AIRMEN — 31 MAY 1958

Number of Enlistments Served

Forty-five per cent of the airmen are on their first Air Force enlistment with no other active duty service time, seven per cent are on their first Air Force enlistment with prior active duty service in the Army, Navy, Marines, or Coast Guard, and 48 per cent are on a second or later AF enlistment. Of those airmen on their second or later AF enlistment, 76 per cent reenlisted immediately on their last reenlistment, 17 per cent did so within 2 to 90 days, and 7 per cent after 90 days. Those who wait longest before reenlisting are Airmen First Class and Staff Sergeants.

Tours (Over 90 Days) Served Overseas since 1948

Overseas tours of over 90 days duration have been served by 63 per cent of the airmen, ranging from 96 per cent of the Master and Technical Sergeants to 19 per cent of the Airmen Basic. Of those who have had overseas tours, 57 per cent have had one tour, 27 per cent have had two tours, and 16 per cent have had three or more tours since 1948.

Active Federal Military Service

The median number of years of active Federal military service (50% had less and 50% had more) for airmen by grade is:

GRADE IN WHICH SERVING	MEDIAN YEARS AFMS
Master Sergeant	16.8
Technical Sergeant	12.3
Staff Sergeant	8.2
Airman First Class	4.3
Airman Second Class	2.7
Airman Third Class	1.2
Airman Basic	0.3

Slightly over 12 per cent of the Master Sergeants are in their twentieth or later year of AFMS.

Active Federal Military Service (AFMS) In Previous Lower Grade

The median number of months of active Federal military service airmen have spent in their previous lower grade provides an index of experience attained before promotion. In the following table number of months of AFMS in previous lower grade represents the midpoint - 50 per cent had less and 50 per cent had more service in previous lower grade:

GRADE IN WHICH SERVING	IN PREVIOUS LOWER GRADE
Master Sergeant	42
Technical Sergeant	39
Staff Sergeant	21
Airman First Class	20
Airman Second Class	11
Airman Third Class	4 or less

From this table, half of the Airmen First Class reached their present grade within about 35 months from the time they first enlisted, but it took the other half longer than 35 months. The service in previous lower grade for Master Sergeants (median: 42 months) is low due to lower requirements of time in grade during World War II and the Korean Air War. The largest 6 - month interval (36 through 41 months) accounts for less than 10 per cent of the Masters, while 28 per cent had 60 or more months in previous grade.

Favor Base-of-Choice/Area-of-Choice Program for Overseas Returnees

While nearly one-third of the airmen, ranging from 20 per cent of the Airmen Basic to 36 per cent of the Technical Sergeants, think the base-of/area-of choice program is of little value, less than two per cent would abolish the program. Over half of the airmen feel the program should be continued since the airman is offered a choice. Only five per cent of the airmen would change the program to offer choice of three areas without a base preference.

Satisfaction with Current Station of Assignment

Those least satisfied with current base of assignment are Airmen Second Class, while Master Sergeants are best satisfied. About 70 per cent of the Airmen Basic are not complaining but only 12 per cent are very well satisfied. Generally, satisfaction with base of assignment improves with each higher airman grade.

Problems Existing Between Present AF Base and Nearby Community

The opinions of officers and airmen coincide on two points in regard to problems between their AF base and a nearby community. Nearly 28 per cent of the airmen (officers, 29%) say no problem exists so far as they know and 25 per cent (officers 24%) believe the major problem is the high prices charged by landlords and merchants. Airmen, however, differ with officers on other significant causes of military - community friction. While they agree on the off-duty irresponsibility of airmen (7%), they mention the failure of the community to make Air Force people welcome and too many military personnel in the area (10%) and the lack of off-base recreational facilities in the area (6%). Three per cent of the airmen (officers, 3%) are located on a base where there is no nearby community.

Awarded Five or Seven Skill Level AFSC

Twenty-five per cent of the Airman Third Class are in a five skill level AFSC and over 75 per cent of the Airmen Second Class. Less than one per cent in each of these grades have seven skill level AFSC. The following percentaged distribution provides skill level by grade:

GRADE IN WHICH SERVING	SKILL LEVEL AFSC		
	Less Than Five	Five	Seven
Master Sergeant	1.6	2.5	95.9
Technical Sergeant	1.8	4.2	94.0
Staff Sergeant	2.8	55.5	41.7
Airman First Class	4.3	94.6	1.1
Airman Second Class	23.5	75.8	0.7
Airman Third Class	74.6	24.6	0.8
Airman Basic	82.8	16.3	0.9

Permanent Changes of Station Movements

During the period 1 June 1957 - 31 May 1958, 54 per cent of the airmen had no PCS movements, 37 per cent had one move, seven per cent had two moves, and two per cent had three or more. The greatest percentage of airmen moving were Airmen Third Class with 46 per cent having one, 16 per cent having two, and five per cent having three or more PCS moves. Seventy per cent of these moves were from training school to duty station.

Satisfaction with Handling of Household Goods on Last PCS Movement

Only one-third of the airmen have had a PCS movement that included shipment of household goods. About one-fourth of those shipping household goods reported shipping and handling was not satisfactory due to damage, excessive delay and other reasons.

Estimate of Annual Cost of Uniform Clothing Items

Airmen in the three lowest grades spend the least money on uniform clothing items and Master Sergeants the most.

SAMPLE SURVEY COMMENTARY (CONTINUED)

AIRMEN — 31 MAY 1958

Readership of "Code of the US Fighting Man"

About 67 per cent of the airmen have read "Code of the US Fighting Man", 10 per cent "Don't Remember", and 23 per cent have not seen the pamphlets. Those who have read "Code of the US Fighting Man" ranges from 82 per cent of the Master Sergeants to 35 per cent of the Airmen Basic.

Participation in the AF Driver Improvement Course -

The greatest participation in the AF 10-hour driver improvement course is by Airmen Second Class (30%) and Airment Third Class (26%).

Ground Safety Messages at Air Force Bases

The best remembered Ground Safety message posted at AF bases is "Courtesy Becomes An Airman" and, second best, is "National Security Is Our Job. We Can Do It Better Without Accidents." Of the 11 messages to choose from, four were "best remembered" by between 10 and 13 per cent of the airmen and 24 per cent indicated that the "best remembered" message was none of the eleven.

Airman Performance Report

The Airman Performance Report program (AFR 39-62) was implemented in late 1954. The operational control of the program was delegated to the major air command to reduce to a minimum the administrative and reporting workload. Reports from the major air command about June 1955 indicated that the program was functioning satisfactorily at that time. In mid-FY 1958, inquiries from the field cited isolated instances in which there were inadequate numbers of Airman Performance Reports in airmen records. The Airman Performance Report is becoming increasingly important in the promotion of airmen to important supervisory positions. Therefore, increased emphasis is being placed on the completion and preservation of these reports. In order to obtain current information on the Airman Performance Report Program, questions were included in the airman sample survey as of 31 May 1958.

The Airman Performance Report is normally completed only on Airmen First Class or above or airmen who have completed at least two years of service. Since the Airman Performance Report Program was implemented in late 1954, airmen who were Airman First Class or above in 1955 should normally be expected to have received three to four reports by May 1958.

The following table shows a percentaged distribution of the number of Airman Performance Reports on file by grade:

	GRADE IN WHICH SERVING					
	M/Sgt	T/Sgt	S/Sgt	A/1C	A/2C	A/3C
No Report	6.8	8.8	11.4	27.8	76.7	88.4
One Report	15.5	19.5	26.4	39.6	16.3	6.5
Two Reports	24.5	28.3	29.6	22.0	4.6	3.0
Three Reports	26.9	22.5	19.4	7.3	1.5	1.4
Four Reports	19.9	14.7	10.1	2.4	0.6	0.5

MILITARY PERSONNEL SAMPLE SURVEYS

AIRMEN – 31 MAY 1958

SPECIAL STUDY OF AIRMEN

BY CAREER FIELD

WITHIN TECHNICAL FUNCTION

SAMPLE SURVEY COMMENTARY

The following report of "Airmen By Career Field Within Functional Category" is derived from the 31 May Sample Survey. Strength by career field has been omitted in order to avoid security classification. Strengths may be obtained from the US Air Force Personnel Report, Military Personnel Skills and Characteristics (SS-PS-1F), which is a classified document.

The tables herein are distributed by Control Air Force Specialty Codes within three functional categories based on AFM 26-1, dated, 8 October 1957, with amendments as of 10 July 1958.

The commentary that follows deals largely with analysis of each technical category. Career fields within each category show a great amount of similarity in grade in which serving, educational level, and other characteristics. Exceptions appear when manpower requirements are readily met or the career field is a speical assignment, such as, Band. The pattern of the career fields as derived from the Sample Survey validates their grouping in AFM 26-1, Sec-D. The characteristics and attitudes shown were selected by Air Staff offices primarily interested in personnel retention and manning.

USAF AIRMEN BY FUNCTIONAL CATEGORY

Grade In Which Serving

AFM 26-1, dated 8 October 1957, provides guidance for grade authorization of airmen. The Grade Guide for Highly Technical career fields allows a considerably higher percentage in the top four grades than are currently assigned. A comparison of the actual grade distribution on 31 May 1958 and the Grade Guide for manpower requirements follows:

Grade	Percentaged Distribution AFM 26-1	Actual
Master Sergeant	11.0	8.3
Technical Sergeant	16.0	11.4
Staff Sergeant	20.5	19.4
Airman First Class	31.3	13.6
Airman Second Class	21.2	31.2
Airman Third Class	-	13.8
Airman Basic	-	2.3

The low percentage of Airmen First Class is caused by separations of airmen at this and next lower level on completion of term of service. The affirmative reenlistment intent of Airmen Second Class is low with only 25 per cent planning to reenlist, 34 per cent undecided, and 41 per cent planning to separate (see SS-PS-1G, Compendium, Vol III, No. 3), dated 31 October 1958.

The Grade Guide for Technical career fields as compared to actual grade distribution on 31 May 1958 is:

Grade	Percentaged Distribution AFM 26-1	Actual
Master Sergeant	8.2	9.2
Technical Sergeant	12.3	9.8
Staff Sergeant	19.8	20.3
Airman First Class	27.8	25.4
Airman Second Class	27.8	25.4
Airman Third Class	2.3	15.2
Airman Basic	-	1.8

AFM 26-1 Grade Guide calls for 40.3 per cent of the airmen to be in the top three grades, and 39.3 per cent

actually are. The percentage of Airmen First Class assigned drops from 22.5 per cent in Semi-Technical career fields to 18.3 per cent in Technical career fields and to 13.6 in Highly Technical career fields indicating a greater separation rate in the more complex career fields.

Grade Guidance for airmen in Semi-Technical career fields fits better to the actual grade distribution than in the other functional categories. The following table illustrates their similarity:

Grade	Percentaged Distribution AFM 26-1	Actual
Master Sergeant	4.5	4.6
Technical Sergeant	6.7	6.5
Staff Sergeant	19.2	21.8
Airman First Class	28.9	22.5
Airman Second Class	33.4	24.1
Airman Third Class	7.3	18.1
Airman Basic	-	2.4

Educational Level

The educational level of airmen in Highly Technical career fields is about the same as that of airmen in Technical career fields. Only 22 per cent did not graduate from high school and most of these airmen are in Aircraft and Engine Maintenance and Munitions and Weapons Maintenance career fields. Sixty-three per cent are high school graduates and 16 per cent more attended college.

Sixty-one per cent of the airmen in Technical career fields are high school graduates and 19 per cent more attended college. Most of the 20 per cent who did not graduate from high school are in the Metal Working and various maintenance career fields.

A little more than 42 per cent of the airmen in Semi-Technical career fields did not graduate from high school as compared to 28 per cent of all airmen. About 52 per cent of the bandsmen are high school graduates and 40 per cent attended college, while 60 per cent of the airmen in Food Service did not graduate from high school.

Reenlistment Intent

Reenlistment intent of airmen in Highly Technical category runs from a low of 38 per cent in Air Traffic Control and Warning and Radio-Radar Systems career fields to a high of 58 per cent in the large Aircraft and Engine Maintenance and 74 per cent in the small Education and Training career fields. The average for all Highly Technical airmen is:

50 per cent plan to reenlist

25 per cent are undecided, and

25 per cent plan to separate

About 50 per cent of the airmen in Technical career fields say they intend to reenlist, 23 per cent are undecided, and 27 per cent plan to separate. The percentage intending to reenlist by career field largely depends upon the percentage of First Termers assigned.

Of all the airmen in Semi-Technical career fields, 55 per cent intend to reenlist, 24 per cent are undecided, and 21 per cent plan to separate.

Enlistments Served

Nearly 48 per cent of the airmen in Highly Technical career fields are on their first Air Force enlistment with no other active duty service time. First Termers run as high as 60 per cent in two career fields - Air Traffic Control and Warning and Radio-Radar Systems.

Over 44 per cent of the airmen in Technical career fields are First Termers with no prior military service. The percentage of First Termers ranges from six per cent in Production Control career field, in which 81 per cent of the airmen intend to reenlist, to 61 per cent in Photomapping with 33 per cent planning to reenlist.

Forty per cent of the airmen in Semi-Technical career fields are on the first Air Force enlistment with no prior military service. Over 75 per cent of the airmen in the Food Service career field are Career Airmen, while nearly two-thirds of the Bandsmen are First Termers.

Effect of Pay Raise on AF Career Plans

Career plans were affected by the pay raise for 27 per cent of the Highly Technical career field airmen; 19 per cent changed favorably and 8 per cent unfavorably. The percentage of those who were affected by the pay raise ran-

SAMPLE SURVEY COMMENTARY (CONTINUED)

ged from 32 per cent in Atomic Weapons to 14 per cent in Education and Training career fields.

The pay raise changed Air Force career plans for 24 per cent of the airmen in Technical career fields. Of the airmen who changed their plans, two to one switched in favor of an AF career.

About 25 per cent of the airmen in Semi-Technical career fields indicate that the pay raise affected their plans to reenlist or separate. Nearly two-thirds of those affected shifted toward affirmative reenlistment intent.

Working Within Own AFSC

Nearly 91 per cent of the airmen in Highly Technical career fields are working within or in related fields of their Air Force specialty. The greatest divergence from AFSC is indicated in the Education and Training career field where 20 per cent are not working in their AFSC and two per cent "Don't Know".

Of the airmen in Technical career fields, 93 per cent are working within their Air Force specialty on or a job related to it, five per cent are not and two per cent "Don't Know". Only in the Production Control career field, in which 12 per cent of the airmen were not in a job related to their AFSC, is there a significant deviation from the mean.

About 92 per cent of the airmen in Semi-Technical career fields are working within or on a job related to their AF specialty, six per cent are not, and two per cent "Don't Know".

Evaluation of Airmen

The "Airman Performance Report" is used to evaluate the airmen. Slightly more than one per cent of the Highly Technical career field airmen are considered "An Unsatisfactory Airman" while seven per cent are evaluated as "Outstanding". Nearly 70 per cent were rated "Very Good" or "Exceptional".

Over 10 per cent of the airmen in Technical career fields are rated "Outstanding". About one per cent are considered "Unsatisfactory".

The evaluation of airmen in Semi-Technical career fields indicates less than two per cent are "Unsatisfactory Airmen" and six per cent are "Outstanding".

Problems Existing Between Present AF Base and Nearby Community

While 26 per cent of the airmen in Highly Technical career fields say that no problem of importance exists between their Air Force base and a nearby community, 25 per cent believe that high prices charged by merchants and landlords cause friction. Twenty-five per cent of the airmen feel that various other problem situations are created by the air base environment and 14 per cent indicate that the civilian community is responsible for them, while seven per cent specify "other reasons" and three per cent have no nearby community. Airmen in Technical and Semi-Technical career fields point out the same problems in corresponding percentages.

"Airmen Performance Reports" in Airman's File

The number of "Airman Performance Reports" in an airman's file depends largely on the length of his service in the Air Force and is reflected best by grade in which serving. When shown by career field the percentage of "No Reports" is directly affected by the grade composition in the career field. Normally, Airmen Second Class and below do not receive performance reports. The percentage of airmen for whom no performance reports are available by grade is:

Grade	Percentage of "No Reports"
Master Sergeant	6.5
Technical Sergeant	9.2
Staff Sergeant	11.8
Airman First Class	30.0
Airman Second Class	76.4
Airman Third Class	88.1
Airman Basic	92.9
All Airmen	45.7

Civilian Personnel

PART XIX

CIVILIAN PERSONNEL

DEFINITIONS

ACCESSION

Action resulting in the addition of a civilian employee to the Department of the Air Force.

APPOINTMENT

1. Excepted Appointment: New appointment without regard to the competitive requirements of the civil service rules and regulations under authority of Schedule A or Schedule B to a position which is excepted under such authority.

2. Excepted, permanent: Employees serving under excepted appointments or personal service contracts which contain no conditions or restrictions as to tenure.

3. Excepted, limited or conditional: Employees serving under excepted appointments or personal service contracts which specify either conditional or indefinite tenure, or specific time limitations.

4. Competitive, career: Appointments from civil service registers to positions which are not filled by career conditional appointments and to other positions of persons who have previously met the service requirement.

5. Competitive, career-conditional: Appointments from civil service registers which are conditional until a service requirement has been met.

6. Indefinite Appointment: Employees who are affected by the folowing: On and after December 1, 1950 all new appointments shall be indefinite appointments, except those of postmasters in all classes of post offices, and, in unusual circumstances, appointments to positions for which the Civil Service Commission determines that probational appointments are in the interest of the service.

7. Temporary Appointment: Civilians serving under temporary appointments for indefinite limited periods (one year or less).

EMPLOYEES

1. Contract Hire: Employees performing personal services for the Air Force and under the supervision of the Air Force. Payments are made for these services by the Air Force to a foreign government or other agency which in turn pays the employees concerned.

2. Departmental Civilian Employees: Employee designation indicating appointment to Headquarters, USAF.

3. Direct Hire: Employees performing personal services for the Air Force and who are paid directly by the Air Force.

4. Full-Time: Employees regularly required to work, as a minimum, the number of hours and days required by administrative work week for their employment group or class, regardless of the nature of appointments.

5. General Schedule (GS): A schedule of civilian personnel which includes former Professional and Scientific Service (P Service), Clerical, Administrative, and Fiscal Service (CAF) and the Sub-professional Service (SP Service) established by Classification Act 1949 (PL 429, 81st Congress) replacing Classification Act of 1923, as amended.

6. Intermittent: Employees employed on an irregular or occasional basis whose hours or days of work are not based on a prearranged schedule, and who are compensated only for the time when actually employed or for service actually rendered. (WAE-Special Consultants and Other than Special Consultants).

7. Part-Time: Employees regularly employed on a prearranged schedule whose working time is less than that prescribed for full-time employees in the same group or class; excludes special consultants.

8. Salaried: Employees whose wage rates are established by law under the Classification Act of 1949 and amendments thereto.

9. Special Consultants: Civilian consultants with "excepted appointments" (excluded from provisions of the Classification Act of 1949) for a specified number of days, not to exceed one year, and who receive a stipulated amount of compensation for the days actually employed.

HEADQUARTERS, USAF

Includes Office of the Secretary of the Air Force, Central Control Group, and the Air Staff.

SEPARATION

Action resulting in the loss of a civilian employee from the Department of the Air Force.

DEFINITIONS

VETERANS' PREFERENCE

The preference, with respect to conditions of employment, as allowed under the Veterans Preference Act as amended. This preference covers ex-servicemen, mothers entitled to preference under Public Laws 396 and 888 (80th Congress), wives of service connected disabled ex-servicemen, and widows of servicemen or ex-servicemen.

5 Point:

1. Veterans (Male and Female) - Civilians employed as of the end of the month, who were "Veterans" resulting from their own active military or naval service in or prior to World I or World War II.

10 Point:

1. Veterans (Male and Female) - Civilians employed as of the end of the month, who were "Veterans" with service connected disability resulting from their own active military or naval service in or prior to World War I or World War II.

2. Wives - Civilians employed at the end of the month, who had established veterans preference as wives of service connected disabled veterans.

3. Widows - Civilians employed at the end of the month, who established veterans preference as the unremarried widows of deceased veterans.

4. Mothers - Civilians employed at the end of the month, who had established veterans preference as the mother of a deceased "Veteran" son or daughter who served on honorable duty in the US Service or the mother of a permanently disabled "Veteran" providing the mother is widowed, divorced, or the wife or a permanently disabled husband (living husband may be either or not the father of the "Veteran").

WAGE BOARD EMPLOYEES

Category of employees who arepaid according to prevailing wage board determinations in the area of their employment.

"WHEN ACTUALLY EMPLOYED" (WAE) EMPLOYEES

See Intermittent Employees (Civilian Personnel).

TABLE 224 — SUMMARY — USAF CIVILIAN EMPLOYEES — 30 JUN 1942 THROUGH 30 JUN 1958

(October 1948 was the initial reporting date for Oversea Air Force Civilian Personnel. Prior to that time, such data was combined with Army statistics. Overseas Contract Hire reporting was not required prior to January 1953.)

TABLE 242 — AIR FORCE AID SOCIETY SUMMARIES — FY 1958

(The total amount of loans outstanding as of 30 June 1958 amounted to $1,473,796 of which it is estimated that $404,847 will not be collected for various reasons. Between 1 March 1946 and 30 June 1958, $1,002,531 has been written off as uncollectible due to death or subsequent financial difficulties of the borrowers. This results in total assistance to date of $3,022,677 of which repayment cannot be expected.

ACTIVITY	FISCAL YEAR 1958	1 MARCH 1946 THROUGH 30 JUNE 1958 a/
EXCESS RECEIPTS OVER DISBURSEMENTS - TOTAL	$ 372,447	b/ $ 3,635,833
Receipts (Excluding Loan Repayment) - Total	805,814	88,231,760
Memberships and Donations of All Kinds	774,752	6,794,695
Fund Raising Activities (Carnivals, Shows, Dances, etc)	31,062	1,437,065
Disbursements (Net) - Total	433,367	4,595,927
Operating Expenses (Forms, Bank Charges, etc)	13,247	99,454

Medical Activities

PART XX

MEDICAL ACTIVITY AND CASUALTIES

DEFINITIONS

ACTIVE DUTY MILITARY PERSONNEL
Consists of all military personnel who are on extended active duty. Excluded are military personnel who are on short tours of duty.

ADMISSION FROM DUTY
The enrollment in a patient status of a military person whose treatment requires that he be excused from duty beyond midnight of the day on which he reported for treatment, whether treated in a hospital, a dispensary or quarters. A patient is considered as admitted from duty only once during a continuous period of treatment: if he is transferred from one medical facility to another, the transfer is not an admission from duty. The term includes patients admitted to non-military medical facilities when the reporting facility has assumed responsibility for the records of the patient. Admissions from AWOL, except those AWOL from a patient status, are counted as admissions from duty. The term excludes persons treated on an outpatient status, and cases carded for record only.

ADMISSIONS RATE
A measure which indicates the frequency of patients being relieved from duty because of medical reasons. Hence, the admission rate is based on admissions from duty. The conversion of number of admissions to show the number of admissions that would occur during a year if admissions occurred throughout an entire year at the same frequency as in the period of observation, per thousand average strength is termed the annual admission rate and is computed as follows:

$$\frac{\text{Number of admissions during period X number of such periods in a year X 1000}}{\text{Average daily strength during the period}}$$

ADMISSIONS TO HOSPITALS AND CLASS "A" DISPENSARIES
Include all patients admitted to the wards of an Air Force hospital or Class "A" Dispensary whether from duty or by transfer from another medical facility. Excluded are cases treated in quarters, or in a duty status, or in a nonmilitary medical facility.

AVERAGE OCCUPIED BEDS
The average daily number of patients occupying beds in hospitals and Class "A" Dispensaries as of midnight of a given day.

AVERAGE STRENGTH SERVED
Includes not only those U. S. active duty military personnel for whom a base holds sick call, but also those U. S. active duty military personnel reporting elsewhere (Dispensaries) for sick call but attached to the base for in-patient care.

CASUALTY
Any person who is dead (from any cause) or whose services are lost to his unit for 24 hours or more because of involuntary absence (missing), capture, interment, or wounds, or injuries requiring admission to a medical treatment facility. Any person undergoing treatment for wounds or injuries as of 2400 local time, is considered as having been lost to his unit for 24 hours or longer. Mental disorders, psychoneurotic cases, colds and other diseases (not causing death) are not included as casualties. Casualties are divided into "battle" and "nonbattle" categories.

CAUSATIVE AGENT
That instrumentality, factor, or occurrence resulting in death, wound, injury, or missing status.

COMPLETE PHYSICAL EXAMINATIONS
Include only routine physical examinations performed in accordance with USAF directives and recorded on the report of medical examinations (Standard Form 88); physical inspections of food handlers or barbers are not included nor are examinations for personnel reporting sick.

DEATHS
Includes those persons killed outright (or dying before reaching a medical treatment facility); those wounded or injured persons who subsequently died of their wounds or injuries (after being admitted to a medical treatment

DEFINITIONS (CONTINUED)

facility); those persons reported as missing who were either subsequently conclusively determined to have been killed, or who, having been in a missing status for a year or more, were presumed to be no longer living; whether or not these incidents occurred "in action" or under "battle" or "nonbattle" conditions.

FULL TIME EQUIVALENT PERSONNEL
Are total assigned and attached personnel converted into actual full-time strength; for example, 10 individuals employed on a full-time basis and 4 individuals employed on a half-time basis, are considered to be 12 full-time equivalents.

HOSPITALIZATION RATIO
The proportion of strength occupying hospital and Class "A" Dispensary beds on an average day (of the period for which it is computed). It differs from the noneffective ratio in that quarters or Class "B" Dispensary patients are excluded. The ratio is computed per 100 strength as follows:

$$\frac{\text{Number of sick days in hospital and dispensary in the period X 100}}{\text{Average daily strength X number of days in the period}}$$

or:

$$\frac{\text{Daily average number of patients occupying hospital and dispensary beds}}{\text{Average daily strength for the period}}$$

INCIDENCE
A count of diagnostic entities reported, as distinguished from number of patients admitted.

MISSING
Any person is missing who is involuntarily absent or who fails to return from a scheduled flight or mission, who is not known to be dead, AWOL, in a hospital, in confinement, on leave, or in any other absent category.

NONBATTLE CASUALTY
Any dead (including those as a result of disease), or wounded, injured or missing person, not classed as "Battle" casualty are defined herein. All self-inflicted wounds or injuries and injuries due to elements such as frostbite and trenchfoot are considered to be "nonbattle". If there is any doubt as to whether a casualty, occurring under combat mission conditions, was due to "nonbattle" factors, the casualty is classed as "battle" and not as "nonbattle."

NONEFFECTIVENESS
The temporary loss of manpower from duty, in this context for medical reasons.

NONEFFECTIVE RATIO
The proportion of strength not available for duty on an average day (of the period for which it is computed) because of medical reasons whether under treatment in hospital, dispensary, or quarters. The ratio is computed per 100 strength as follows:

$$\frac{\text{Number of sick days in period X 100}}{\text{Average daily strength X number of days in period}}$$

or:

$$\frac{\text{Average daily number of "patients remaining" X100}}{\text{Average daily strength}}$$

OPERATING BEDS
Those medical treatment facility beds which are currently set up and in all respects ready for the care of patients, and which the facility is staffed and equipped to operate. Bassinets and Class "B" Dispensary beds are not included.

OUTPATIENT VISITS
A visit is counted for each patient (not excused from duty) who on a given day presents himself for either medical advice or treatment. On any given day, only one visit is counted regardless of the number of times the patient is seen; when the patient is seen on multiple days, one visit is counted for each day. Patients reporting for prescribed examinations and immunizations are not counted as a visit.

DEFINITIONS (CONTINUED)

PRINCIPAL DIAGNOSIS
A term used to indicate the sum of sole and primary diagnosis.

SPECIFIED PERIODIC EXAMINATIONS OR TESTS
Are those examinations or tests administered to personnel, military or civilian, exposed to industrial-type hazards.

RETURNS TO MILITARY CONTROL
Persons, previously reported as missing, who have returned to military control from a missing status.

Security & Discipline

PART XXI

SECURITY AND DISCIPLINE

PROVOST MARSHAL

INTRODUCTION

Provost Marshal statistics are a collection of selected data concerning corrections, security violations, and delinquencies charged to Worldwide Military Personnel on active duty. The statistics reported in this section are derived from AF Form 511, "Provost Marshal Activities Report."

The following definitions affect this portion of the Security and Discipline reports:

DEFINITIONS

ABSENT WITHOUT LEAVE (AWOL)

The status or the offense of any member of the Air Force, who, without proper authority:

(1) Fails to go to his appointed place of duty at the time prescribed, or

(2) Goes from that place, or

(3) Absents himself or remains absent from his unit, organization, or other place of duty which he is required to be at the time prescribed (Uniform Code of Military Justice, Article 86) (See AFR 35-73 1-4 dated: 2 August 1955.)

APPREHENSION

a. Cooperation of State and Local Police Forces. Commanders of zone of interior major air commands will take steps to secure the active cooperation of all State and local police forces and such other officials and organizations as they may consider useful to insure the person's prompt return to military control. Such agencies will be informed that they should not take action to apprehend an absentee or deserter unless they are in receipt of either DD Form 553 or information from an officer of the Air Force that the person is an absentee or deserter whose return to military control is desired. Commanders of major air commands overseas will take such action as the local situation may warrant.

b. Personnel Authorized to Apprehend:

(1) Military. Members of the Armed Forces are authorized to apprehend absentees and deserters in the circumstances described in MCM, 1951, paragraphs 17, 18, and 19.

(2) Civilians. Any civil officer having authority to apprehend offenders under the laws of the United States or any state, district, territory, or possession of the United States may summarily apprehend a deserter from the Armed Forces of the United States and deliver him into the custody of the Armed Forces of the United States (Uniform Code of Military Justice, Article 8). Generally, a private citizen does not have any authority to apprehend a deserter unless authorized to do so by a military officer (distribution of DD Form 553 has been held to be sufficient authorization).

CUSTODY GRADE

Prisoners will be classified as being in a minimum, medium or maximum custody grade in accordance with the criteria outlined in (1), (2), and (3) below. The initial classification will be determined by the confinement officer based upon the nature of the offense, demeanor of the prisoner upon admission, and any other pertinent information available.

(1) Minimum custody prisoners--Those who are sufficiently stable, dependable, and trustworthy who require little or no custodial supervision.

(2) Medium custody prisoners require continual supervision, but their escape would not threaten life, limb, or property.

(3) Maximum custody prisoner--Those whose escape would present a distinct threat to the safety of life, limb or property, and who require special custodial controls and handling.

The abbreviations used in connection with the Tables of Provost Marshal Activities Data are explained below:

CONTINENTAL US

ADC	- Air Defense Command	ConAC	- Continental Air Command
AFFC	- Air Force Finance Center	Hq CMD	- Headquarters Command
AMC	- Air Materiel Command	MATS	- Military Air Transport Service
ARDC	- Air Research and Development Command	SAC	- Strategic Air Command
ATC	- Air Training Command	TAC	- Tactical Air Command
AU	- Air University		

OVERSEAS

AAC	- Alaskan Air Command	PacAF	- Pacific Air Command
CAirC	- Caribbean Air Command	USAFE	- US Air Forces in Europe

505282 O - 59 - 37

TABLE 257 -- PROVOST MARSHAL

(Offenses as listed below are chargeable to the average daily strength as defined in AFM 171-6, Chapter 14, Paragraph excluding those persons on TDY and Missing of Air Force Units. SCARWAF Personnel will be included if court-martial some modification over Table 266, FY 1957.)

SECURITY AND DISCIPLINE

OFFICE OF SPECIAL INVESTIGATIONS

The following definitions pertain to the security portion of this Digest.

DEFINITIONS

AUXILIARY OFFICE INVESTIGATIONS - (short terminology - "Auxiliary")
Investigations of any nature conducted by the Directorate of Special Investigations or a District Office, in which, in accordance with OSI policy, that office acts as an assistant to the controlling office (the office of origin) within its territorial investigative jurisdiction.

CLASSIFICATION
The numerical designation and descriptive character assigned to each investigation which indicates the principal nature of the purpose of the investigation.

COUNTERINTELLIGENCE INVESTIGATIONS
Investigations conducted to determine facts related to security control measures designed to insure the safeguarding of information, personnel, equipment and installations against the sabotage, espionage or subversive activities of foreign powers and of disaffected or dissident groups or individuals which may constitute a threat to the internal security of the Air Force.

GENERAL INVESTIGATIONS
Investigations conducted to determine facts and circumstances pertaining to alleged major violations of the Articles of the Uniform Code of Military Justice, Federal Statutes and/or other applicable directives, by USAF personnel, excluding incidents of a counterintelligence or procurement nature.

INVESTIGATIONS CLOSED
Investigations terminated by offices of origin and auxiliary offices after all relevant facts have been determined and impartially reported to the requesting commander through proper OSI channels.

INVESTIGATIONS OPENED
Investigations initiated by offices of origin or auxiliary offices pursuant to requests from appropriate commanders or the Chief of Staff, USAF.

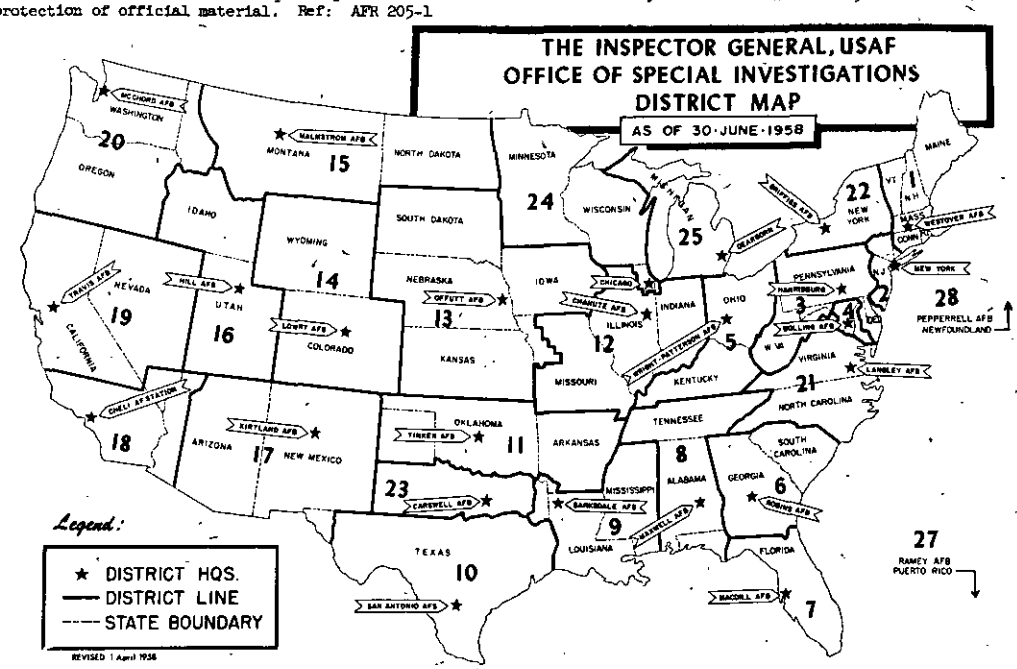

INVESTIGATIONS PENDING
Investigations opened by offices of origin or auxiliary offices on which, as of the date such investigations are inventoried, there remains further investigative work and reporting to be done before they may be considered investigations closed.

OFFICE OF ORIGIN INVESTIGATIONS - (short terminology - "Origin")
Investigations of any nature conducted by the Directorate of Special Investigations or a District Office in which, in accordance with OSI policy, that office assumes the control of the entire investigation.

PERSONNEL SECURITY INVESTIGATIONS
Investigations conducted to determine facts upon which the requesting commander can decide whether to grant or deny to the subjects of the investigations access to restricted areas and/or classified defense information. The loyalty and security program within the executive departments established the requirement for such investigations, and they are governed by law, DOD directives and Air Force policies.

PROCUREMENT INVESTIGATIONS
Investigations conducted to determine facts surrounding incidents of alleged breaches of the public trust and violations of law in connection with Air Force procurement, disposal, nonappropriated funds, and pay and allowance matters.

SECURITY
Safeguarding military information - This regulation prescribes policies and procedures for the safeguarding of classified information which requires protection and to achieve uniformity in the identification, classification and protection of official material. Ref: AFR 205-1

SECURITY AND DISCIPLINE

JUDGE ADVOCATE GENERAL

INTRODUCTION

Judge Advocate General statistics are a collection of selected data on Courts-martial and Trials by Foreign Courts. The statistics reported on courts-martial are derived from AF Form 214"Report of Court-Martial Activities." The statistics on trials by foreign courts are derived from DD Form 838"Exercise of Criminal Jurisdiction by Foreign Tribunals over United States Personnel."

The following definitions affect this portion of the Court Martial Reports:

DEFINITIONS

CIVIL TYPE OFFENSES

(1) Thefts - Larceny or wrongful appropriation.

(2) Felonies - Offenses under the Uniform Code of Military Justice, which are also offenses under State and Federal statutes and for which the authorized punishment is in excess of one year.

(3) Others - Offenses under the Uniform Code of Military Justice, which are also offenses under State and Federal statutes, and for which the authorized punishment is one year or less.

MILITARY OFFENSES

(1) Absence Without Leave (AWOL) - Any absence from unit, organization, or other place of duty, without proper authority.

(2) Other - Any offense chargeable under the Uniform Code of Military Justice, that can be committed only by military personnel.

The abbreviations used in connection with Court-martial tables are explained below:

CONTINENTAL US

USAFA	- US Air Force Academy	ConAC	- Continental Air Command
ADC	- Air Defense Command	HQ CMD	- Headquarters Command
AMC	- Air Materiel Command	MATS	- Military Air Transport Service
APGC	- Air Proving Ground Command	SAC	- Strategic Air Command
ARDC	- Air Research And Development Command	TAC	- Tactical Air Command
ATC	- Air Training Command	Sec Svc	- US Security Service
AU	- Air University	1090th Rep Gp	- 1090th Special Reporting Group

OVERSEAS

AAC	- Alaskan Air Command	PacAF	- Pacific Air Force
CAirC	- Caribbean Air Command	USAFE	- US Air Forces in Europe

TABLE 260 — SUMMARY — USAF PERSONNEL TRIED BY COURT-MARTIAL FOR ALL OFFENSES AND ABSENCE WITHOUT LEAVE AND DESERTION ONLY, WORLDWIDE — FY 1952 THROUGH FY 1958

(Table below is a new table; strength is computed under AFM 171-6, Chapter 16, Paragraph 7c(1); Rates are per 1,000 strength).

Components

PART XXII

COMPONENTS

DEFINITIONS

AF RESERVE

ACTIVE DUTY FOR TRAINING
A full-time tour of duty with the active establishment for Reserve training, under orders which provide for automatic reversion to an inactive duty training status upon completion of the specified tour of active duty. This includes all tours accomplished under the provisions of AFR 45-14, dated 21 August 1957.

AERIAL PORT SQUADRONS (AP Sq)
T/O units whose personnel are trained in the functions carried on at air terminals and whose specialty is loading, unloading, and dropping of supplies from aircraft.

AIR RESERVE CENTER TRAINING
Individual type inactive duty training provided by Continental Air Command in Air Reserve Centers through formal courses of instruction.

AIR RESERVE SQUADRON (Navigational Training) (ARS Nav)
Non-T/O units made up of navigators who train in navigational methods and procedures.

AIR RESERVE UNIT PERSONNEL (General Training) (ARU (Gen)
Those AF Reserve personnel, who are assigned to Non T/O AF Reserve units, and participate in individual general type training (redesignated ARC Training-Standby, 3rd Quarter, FY 1958).

AIR RESERVE WINGS (Troop Carrier)
T/O units whose personnel are trained to perform troop carrier missions.

AIRWAYS AND AIR COMMUNICATIONS SERVICE SQUADRON (AACS)
T/O units whose personnel are trained in communications with aircraft in flight as well as with airway stations for the purpose of safe movement of aircraft.

INACTIVE DUTY TRAINING
Unit training assemblies, training periods of instruction, appropriate duties, or equivalent training, including hazardous duty, which are performed with or without pay by a reservist not on EAD or on active duty for training. Includes duties performed in connection with training, administration, and/or support activities of the unit of assignment or study through the USAF Extension Course Institute. Points will be awarded in accordance with AFR 45-15.

INACTIVE STATUS LIST RESERVE SECTION
Reservists who fail to meet minimum requirements for retention in an active status are assigned to this section if they have completed all reserve service required by law. While assigned to this section, reservists are not eligible for active or inactive duty training, promotion, or award of points. They may be ordered to Extended Active Duty (EAD) involuntarily only if there are no other Ready or Standby Reservists of the appropriate grades and military specialties who are available for active military service and then only if the Director of Selective Service, determines that they are available for EAD.

INELIGIBLE RESERVE SECTION (Other)
Consists of Ready Reservists who were transferred to the Air Force Reserve to complete a Reserve obligation, in accordance with the Universal Military Training and Service Act of 1948, as amended, who do not voluntarily participate in any reserve training programs or point gaining activities.

MOBILIZATION ASSIGNMENT RESERVE SECTIONS (MOARS)
Administrative sections of the Major Air Command headquarters and its subordinate organizations. Reservists authorized Parts I, II, or III of the Reserve Space and Grade Authorization by Headquarters USAF are assigned to those sections and are comprised of:

1. Part I, Major Command War Augmentation Requirement for Individuals - Pertains to personnel assigned to and trained (both active and inactive duty training) by the command.

2. Part II, Major Command War Augmentation Requirement for Individuals - Pertains to personnel assigned to the command but given inactive duty training and administered by Continental Air Command.

3. Part III, General Reserve War Requirement for Individuals, is the attritional replacement requirement of the Air Force. These personnel are assigned to and trained by Continental Air Command.

COMPONENTS (Continued)

DEFINITIONS

AF RESERVE (Continued)

NON-AFFILIATED RESERVE SECTION
Comprised of Air Force Reserve members in an active status who are not assigned to an Air Force Reserve Category "A" unit, an Air Reserve Center unit, or to a mobilization position, but do physically and professionally qualify for reserve training participation, meet established criteria for active military service, and meet minimum retention requirements by completing courses through the USAF Extension Course Institute, by participating in Air Reserve center unit activities on an unassigned basis, or by participating in other authorized point-gaining activities.

PROGRAM ELEMENTS
Classification of reservists by type, amount of training and pay authorized, and/or type of unit or categories of assignment.

READY RESERVE
Air Force Reserve units and personnel who may be ordered to extended active duty involuntarily in time of war, national emergency declared by Congress or proclaimed by the President, or when otherwise authorized by law.

RESERVISTS IN NON-PAY STATUS ASSIGNMENTS
Air Force Reservists who are physically and professionally qualified for active duty, but for whom no position vacancy exists in Pay Status Assignments, or those who do not participate in the Air Force reserve training program to the extent required for retention in Pay Status Assignments. Except for the maximum age of 60, there are no age-in-grade or availability requirements.

RESERVISTS IN PAY STATUS ASSIGNMENTS
Participating Ready Reservists who are physically and professionally qualified for active duty, who fulfill the age-in-grade requirements, availability requirements, who are authorized pay for active and inactive duty training, or pay for active duty for training only.

RETIRED RESERVE
Air Force Reserve personnel whose service has been honorable and are eligible under AFR 45-39A, and who have applied for and received transfer to the Reserve Retired List.

STANDBY RESERVE
Air Force Reserve personnel who may be ordered to extended active duty involuntarily only in time of war, national emergency declared by Congress, or when otherwise authorized by law.

AIR NATIONAL GUARD

AIR NATIONAL GUARD AUTHORIZED STRENGTH
Total manning authorized under appropriate Tables of Organization, Tables of Distribution, and Unit Manning Documents currently augmented and/or reduced by the National Guard Bureau.

PROGRAM STRENGTH
Manning objective, applicable to units in being or scheduled for activation, by a specified period of time.

DEFINITIONS

AIR FORCE RESERVE OFFICERS TRAINING CORPS (AF ROTC)

AFROTC STRENGTH
This is the inventory of all Air Force Reserve Officers' Training Corps (AFROTC) students in active participation of ROTC training, in conjunction with academic curriculum at civilian educational institutions.

CONDITIONAL ENROLLMENT
This type of enrollment is a tentative enrollment which will not become absolute unless and until the proper authority determines that the student concerned is fully qualified for formal enrollment in the advanced course of the Air Force ROTC.

ENROLLED STUDENTS
This group includes both conditionally and formally enrolled students.

FORMAL ENROLLMENT
This type of enrollment is an absolute advanced enrollment where a condition does not exist that would question a student's qualification for enrollment. Such enrollment entitles the student concerned to receive all benefits, financial and otherwise, provided by law, and regulations (Tables in this publication are based on this type of enrollment).

TABLE 300 – SUMMARY – CIVIL AIR PATROL (CAP) – HIGH SCHOOL AVIATION EDUCATION PROGRAM – 1949 (FALL) THROUGH 1958 (FALL)

The Coordinated CAP-High School Aviation Education Program is an aviation education plan which may be described as general education in regard to aviation.

The course, as a one-year program for high school instruction, is taught by regular members of the school faculty. (It is also designed as a two-year course for use at CAP squadron level with CAP and Air Force Reserve personnel serving as instructors.) Any student is eligible to participate in the high school course of instruction, and CAP membership, though desirable, is not necessary.

DATE	NUMBER OF HIGH SCHOOLS	NUMBER OF STUDENTS
Fall Semester 1949	89	2,780
Spring Semester 1950	119	3,531
Fall Semester 1950	192	5,475
Spring Semester 1951	228	6,115
